## *Citation Management with Endnote*

**13.06.2014**

**Basil Marti**  
*Thüringer Universitäts- und  
Landesbibliothek*

# Workshop Overview

1. 10:15 – ca. 16:00
2. Lunch break 12:45-13:30

---

## What to expect?

***Introduction into the reference management software EndNote***

Import, organization and usage of bibliographic data

## How are we proceeding?

1. Presentation & live demonstrations
2. Exercises

# Why reference management?

Collecting bibliographic data by hand/on paper?

- (1) Lots of effort
- (2) Prone to errors
- (2) Difficult to organize

Reference management software like EndNote offers:

- 1. Central database for bibliographic information
- 2. Automatic import of bibliographic data

*„In need to cite an article I read half a year ago – but can't find it again!*

*Citation management instead of chaos*

# Why reference management?

~~Was ist ein Zitat? . III. PHYSICAL REVIEW B 37.1. S. 177-182.~~

Weber, Werner (1987). "Electron-phonon interaction in the new superconductors  $\text{La}_{2-x}(\text{Ba},\text{Sr})_x\text{CuO}_4$ ". In: *Physical Review Letters* 58.13. S. 1371–1374. DOI: 10.1103/PhysRevLett.58.1371.

Wheatley, J. M., T. C. Hsu und P. W. Anderson (1988). "Interlayer pair hopping: Superconductivity from the resonating-valence-bond state". In: *Physical Review B* 37. S. 5897–5900.

~~Malice, Stuart A. und Leesman, Vladimir I.I. (1997) International Mailhouse~~

Creating citations and bibliographies when writing papers/theses:

- (1) Lots of effort
- (2) Correct formatting is difficult
- (3) How to avoid errors

Reference management software can do this automatically!

---

# Introduction & Installation

# Introduction (1)

*EndNote* is a database program.

*EndNote* helps

- Collecting and organizing literature (bibliographic references, full-texts, abstracts, pictures, figures, tables ...) and
- Writing scientific works

*EndNote* is the most used Reference Management Software worldwide.

Competitors are *Reference Manager*, *Citavi*, *ProCite*, *Mendeley*, *Zotero*

# Introduction (2)

- Save references in a *Library*, which is saved locally
- Unlimited amount of *References* in a library
- Insertion of citations into your documents and automatic generation of bibliographies
- Great amount of formatting styles (>5550 Output Styles)

# Introduction (5)

- Producer: Thomson Reuters
- Thomson Reuters:

Producer of *Web of Science (WoS, Web of Knowledge)*, *EndNote* & *EndNote Web*

- *EndNote* and *EndNote Web* are integrated into WoS and optimized for use with WoS
- EndNote Web can be used for free for subscribers to WoS (-> free for university members and students of the TU Dresden)

# Introduction (1)

## *Important Competitors:*

- *Citavi ([www.citavi.com](http://www.citavi.com))*
  - *Similar to EndNote*
  - *Knowledge management functions: Create and organize citations and notes*
  - *Only for Windows*
  - *Commercial Product*
- *Zotero (<http://www.zotero.org/>)*
  - *Browser-plugin, platform-independent, free*
  - *Good for direct import of references into your database*
- *Mendeley ([www.mendeley.com](http://www.mendeley.com))*
  - *Both online/offline versions, platform-independent, free*
  - *Social network functions for scientists*

# Introduction (2)

## *Important Competitors:*

- *Refworks (<http://www.refworks.com>)*
  - *Web based (no local installation), collaborative sharing*
  - *No PDF editing possible*
  - *TU Dresden licence: <http://www.slub-dresden.de/service/schreiben-publizieren/refworks/>*
- *JabRef (<http://jabref.sourceforge.net> )*
  - *Open Source, multi-platform*
  - *Specific for editing BibTeX-Databases*
  - *BibTeX is a module for the LaTeX-word processor*

# System requirements (1)

- Windows
  - Windows XP, Vista, 7, 8
- Macintosh
  - Mac OS X 10.6 and later
- Word Processors (Windows)
  - Microsoft Word 2007, 2010, 2013
  - Microsoft Power Point 2013
  - Open Office 3.X
  - RTF files
- Word Processors (Mac)
  - Microsoft Word 2008, 2011
  - Apple Pages 09

# Installation (1)

- Free trial version (valid for 30 days)
- Full version is available only with costs
  - German distributor: <http://directory.adeptscience.de/>
  - Prices: Academics: € 264, students € 132
- Installation on University Computers: Check with ZIH:
  - [http://tu-resden.de/die\\_tu\\_dresden/zentrale\\_einrichtungen/zih](http://tu-resden.de/die_tu_dresden/zentrale_einrichtungen/zih)

# Installation (2)

- Installation modi:
  - 1) Automatic Installation: Installation of the 100 most important citations styles
  - 2) Manual installation: Installation of additional *Life Sciences Styles* recommended.
- Additional styles can be imported at a later date
  - 1) *EndNote Style Collection:*  
<http://www.endnote.com/support/enstyles.asp>
    - More than 5500 *Output Styles*
    - Sorting options

---

# First Steps & References

# User interface

Menu and tool bars with common commands, e.g. import, online search, insert into Word etc.

The screenshot shows the EndNote X6 application window with several features highlighted:

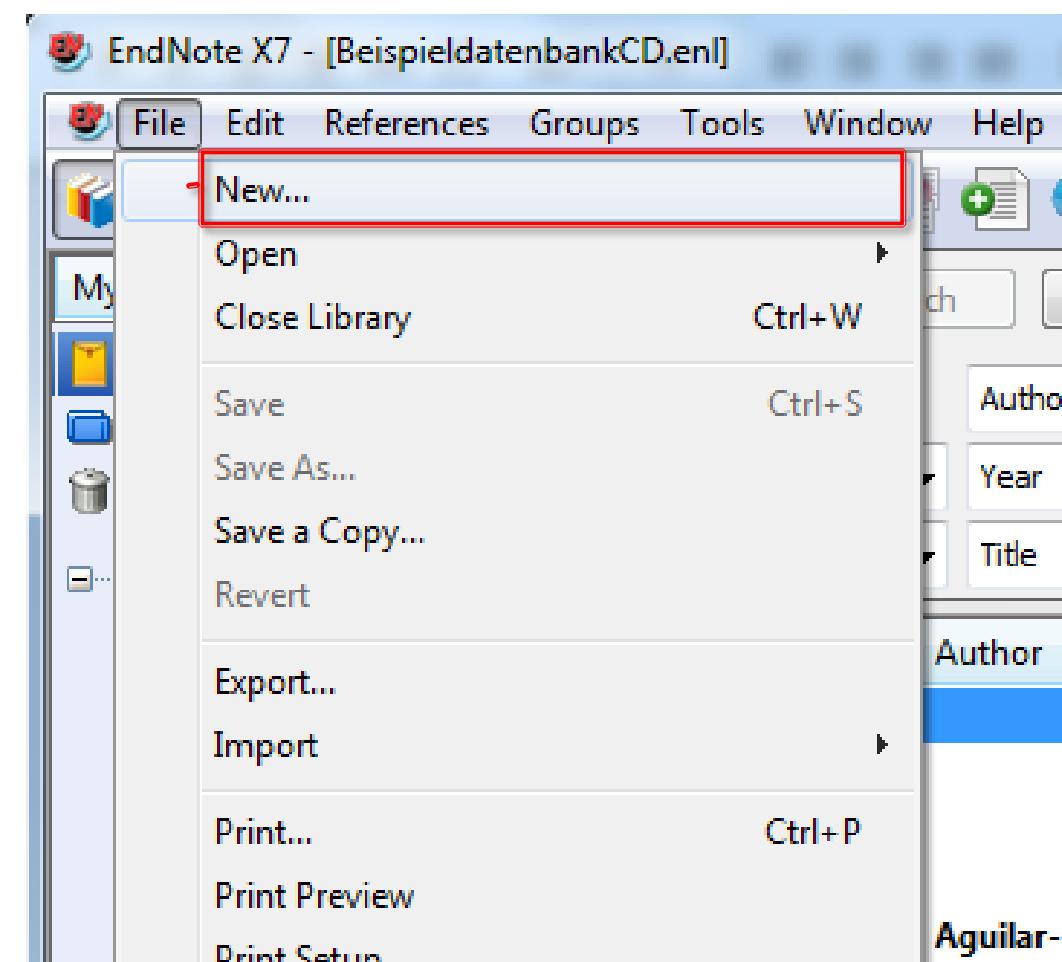

- Search window:** Located at the top center, it contains search criteria for Author, Year, and Title, all set to "Contains". A red box highlights the "Hide Search Panel" button in the top right corner of the search window.
- Display Fields:** A yellow box highlights the column headers in the main reference grid, including AUTHOR, YEAR, TITLE, RATING, JOURNAL, JOURNAL ART., and URL.
- Output-preview:** A green box highlights the preview pane at the bottom left, showing a reference from Voedisch et al. (2011) and its abstract.
- Reference Panel:** A red box highlights the panel on the right side, which includes a dropdown menu for arranging panels (Left, Off, Right, etc.) and a "Layout" button.
- Reference Grid:** The main area displays a list of 123 references, with the first few entries shown below:

# First steps: Creation of an Endnote library

*EndNote Libraries consist of two components: .enl and .data.*

- Create a new library using the **File/New** menu option
- Open an existing library using **File/Open**
- Database file format: **.enl** („EndNote Library“)
- **.data** folder with full texts etc.

# Display Fields – bibliographic metadata

Column bar with up to 10 columns (**Clicking** on collums sorts entries)

The screenshot shows a library window with a list of entries and an open 'EndNote Preferences' dialog.

**Library Window:**

Author	Year	Title	Rating	Journal	Ref Type	URL

# Modify reference types

- It is possible to create new reference types and modify existing ones: **Edit/Preferences/References Types**

The screenshot shows the 'EndNote Preferences' dialog box. On the left, a sidebar lists various preferences: Change Case, Display Fields, Display Fonts, Duplicates, Find Full Text, Folder Locations, Formatting, Libraries, PDF Handling, Read / Unread, Reference Types (which is highlighted with a red box), Sorting, Spell Check, Sync, Temporary Citations, Term Lists, and URLs & Links.

The main area contains a 'Reference Types' section. It includes a dropdown menu set to 'Journal Article', a 'Modify Reference Types...' button, and a note about using the Reference Types Table to add, delete, or rename field names or to modify reference types. Below this is a 'Reference Type Table' section with 'Export...' and 'Import...' buttons, and a note about importing a new RefTypeTable xml file.

A separate 'Modify Reference Types' dialog box is overlaid on the main window. It shows a table mapping generic field names to their corresponding reference types:

Generic	Journal Article
Author	Author
Year	Year
Title	Title
Secondary Author	Journal
Secondary Title	Volume
Place Published	Volume
Publisher	Issue
Volume	Pages
Number of Volumes	Start Page
Number	
Pages	
Section	
Tertiary Author	
Tertiary Title	

At the bottom of the 'Modify Reference Types' dialog are 'EndNote Defaults' and 'Apply to All Ref Types' buttons.

# Keywords

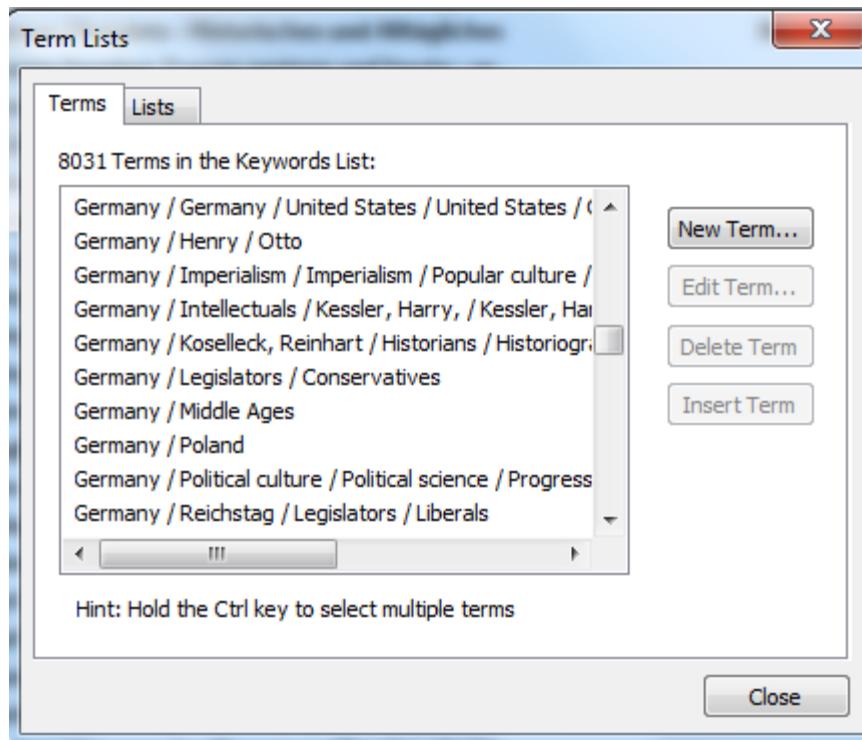

The screenshot shows a software interface for managing references. At the top, there are icons for back, forward, reference management, attached PDFs, and other functions. Below this is a toolbar with icons for search, refresh, folder, checklist, and plain font. The main area displays bibliographic information:

**Accession Number:** 22129181  
**Call Number:** (empty)  
**Label:** (empty)  
**Keywords:** (highlighted with a red box)  
Carcinoma in Situ/\*diagnosis/\*virology  
Cervical Intraepithelial Neoplasia/surgery  
DNA Probes, HPV  
Female  
Humans  
Hysterectomy  
Papillomaviridae/genetics/\*isolation & purification/pathogenicity  
Papillomavirus Infections/diagnosis  
Predictive Value of Tests  
Retrospective Studies  
Vagina/\*pathology/\*virology  
Vaginal Neoplasms/\*diagnosis/\*virology  
Vaginal Smears  
**Abstract:**  
CONTEXT: Data on high-risk human papillomavirus (hrHPV) DNA to corresponding cytologic and histopathologic correlation data are in vaginal (after hysterectomy) low-grade squamous intraepithelial lesions for vaginal LSIL LBC and hrHPV results between July 1, 2005, and July were analyzed. RESULTS: During the study period, 2892 patients with identified: 148 (5.1%) of the patients had vaginal Papanicolaou test results. Of 148 patients, 50 of those with vaginal LSIL, including 18 (81.4%) with

- **Keywords** are possible for all reference types
- **Recommendations**
  - Individual tagging of references
  - Rating of references with e.g. „very important“, „discussion“, „introduction“ etc. allows for fast rediscovery at a later date

# Term lists

Manage keywords with term lists: Tools/Open Term Lists

Define list of pre-defined keywords, which will be used by an autocomplete function.

Also available for other fields (e.g. author, journal)

---

# Enter, search and import

- 
- ✓ *Manual data entry*
  - ✓ *Search in local EndNote libraries*
  - ✓ *Online search in different databases*
  - ✓ *Endnote import functions*
  - ✓ *Search for full texts*
-

# Import data – 5 possible ways

## *Manual data entry*

- Create new reference
- Select reference type
- Fill in metadata by hand
- Add figures and PDF-files

## *Online Search*

- Search and import using the online-mode of EndNote

## *Direct export from online databases and catalogues*

- Search in an external database
- Use the Save/Export function
- EndNote starts automatically
- E.g.: WoS

# Import data – 5 possible ways

## *Import of PDF-files*

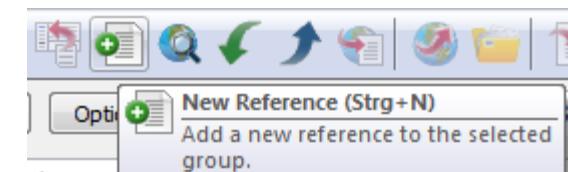

- Metadata of PDF-files are automatically inserted as an Endnote reference and linked to the PDF-file

## *From EndNote Web*

- Synchronisation

# *Manual data entry*

- Select **New Reference** in the toolbar:
- Enter data by hand
- Hints: Enter personal names as “first-name surname” or “surname, first-name”. Add a new line for additional authors/contributors.
- Add a new line for several keywords
- Avoid line breaks in title or other fields

- Attention: Manual data-entry is time-consuming and error-prone: If possible use an online source and import the metadata (bibliographic databases for article, library catalogues for books).

---

## Search in local *EndNote* libraries

---

# 3 search modes

*Integrated Library  
& Online Search  
Mode*

## **Local + Online**

- Default
- Online search results are loaded directly into your own library (*All References*)

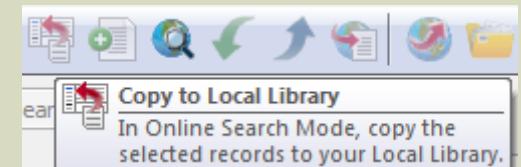

*Local Library  
Mode*  
**Local**

- Search only in the local library

*Online Search  
Mode*  
**Online**

- Only online search
- Add search results into library by selecting *Copy to Local Library*

# 3 search modes

*Integrated Library  
& Online Search  
Mode*

*Local Library  
Mode*

*Online Search  
Mode*

**TIP:**

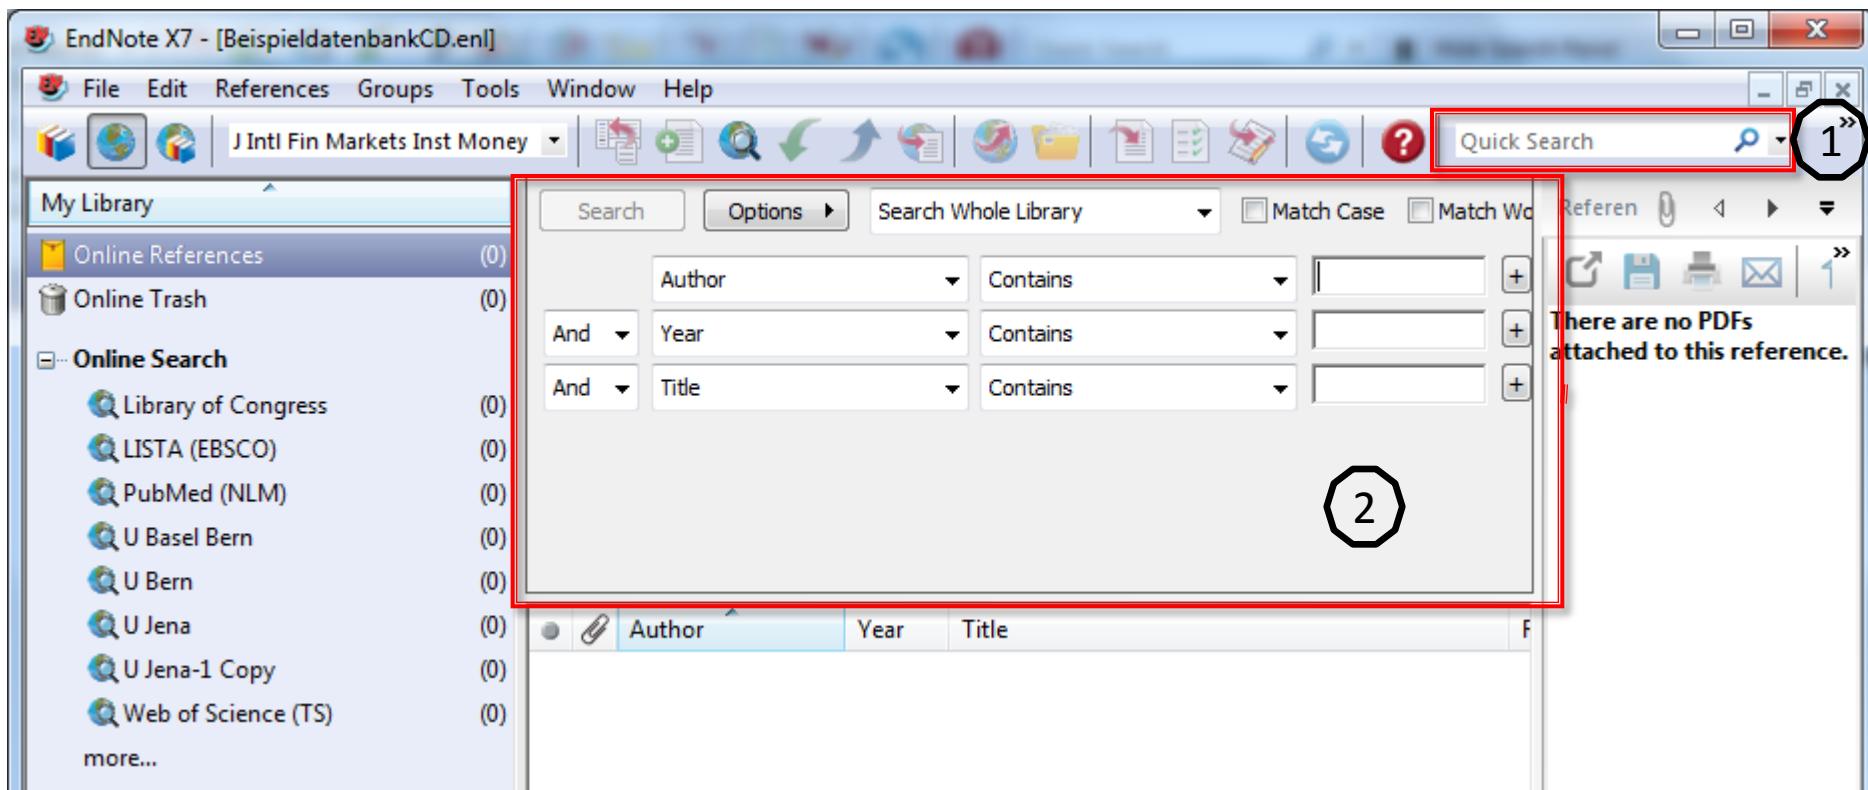

**Edit your references using the Local Library Mode**

**When searching in databases with EndNote, use the Online Search Mode**

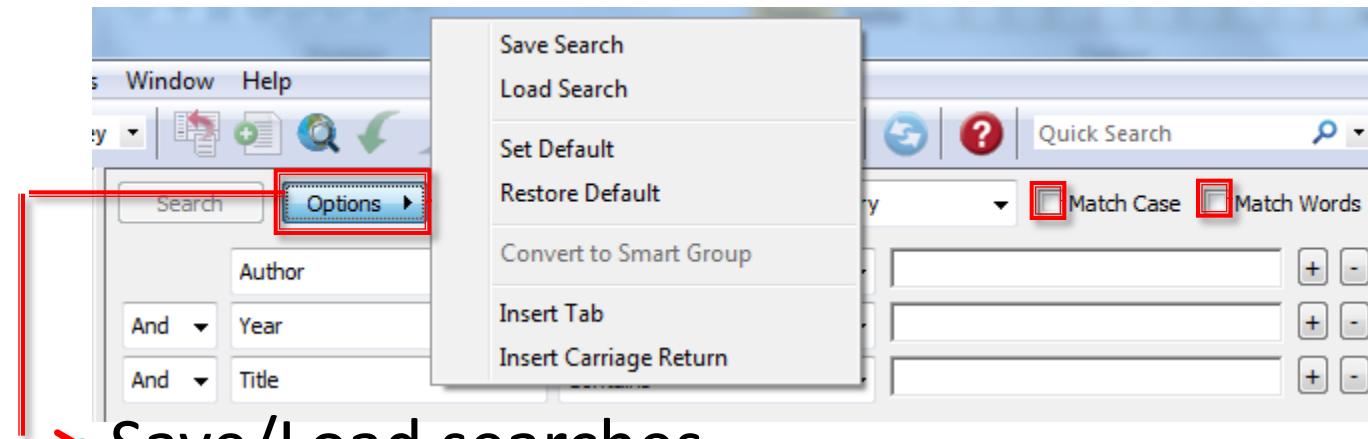

**If possible avoid the *Integrated Library & Online Search Mode.***

# Search the local library (1)

① *Quick Search* & ② *Library Search*

# Search the local library (2)

Save/Load searches

- Search the whole library or subsets
- Automatic truncation (left and right)
- ***Match Case*** and ***Match Words***: exact search

# Search the local library (3)

The screenshot shows a library search interface with a search bar and options for 'Search Whole Library', 'Match Case', and 'Match Words'. On the left, there are dropdown menus for 'Author' (Contains), 'Year' (Contains), and 'Title' (Contains). The first two dropdowns have 'And' selected, while the third has 'Or'. To the right of the search bar, three diagrams illustrate the operators:

- and:** Two overlapping circles labeled 'D' and 'F' with a downward arrow labeled 'and' between them.
- or:** Two separate circles labeled 'A' and 'D' with a horizontal bar below them.
- not:** A single circle labeled 'D' with a circle labeled 'F' partially overlapping it, with the word 'not' written below.

A red bracket on the left side of the interface groups the 'And' dropdowns and the 'or' diagram.

- Boolean operators: **AND, OR, NOT**

Operator	Bedeutung
AND	<b>Both</b> conditions have to be true
OR	<b>One</b> of the condition has to be true
NOT	The condition has to be <b>false</b>

# Search in the local library (4)

The screenshot shows a search interface with the following configuration:

- Search button
- Options button
- Search Whole Library dropdown
- Match Case and Match Words checkboxes
- Rating dropdown set to "Is" with five stars selected.
- And dropdown followed by Year dropdown set to "Contains" and an empty input field.
- And dropdown followed by Title dropdown set to "Contains" and an empty input field.

The screenshot shows a search interface with the following configuration:

- Search button
- Options button
- Search Whole Library dropdown
- Match Case and Match Words checkboxes
- Keywords dropdown set to "Is" with the value "sehr wichtig" entered.
- And dropdown followed by Year dropdown set to "Contains" and an empty input field.
- And dropdown followed by Title dropdown set to "Contains" and an empty input field.

- Search for keywords or ratings is possible
- Can be used to create smart groups

---

## *Online search* – Search in external databases

---

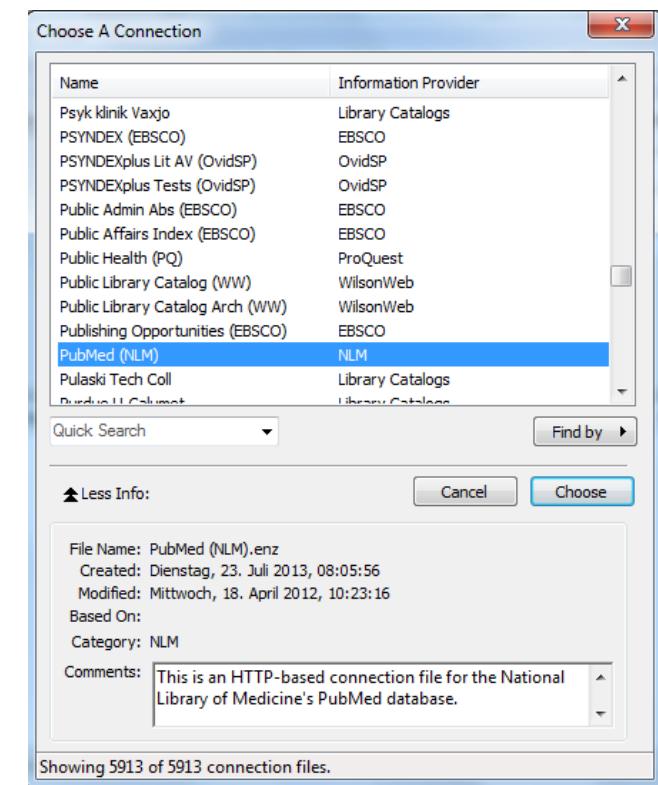

# Online search in EndNote (1)

- (1) Links (=Connection Files) are available for many databases

- PubMed
- Web of Science
- GeoRef
- Biological Abstracts
- Library Catalogues (SWB, GBV)

- (2) Add database using *Tools / Online Search... / PubMed*)

- (3) Database appears in the group *Online Search*

# Online Suche in *EndNote* (2)

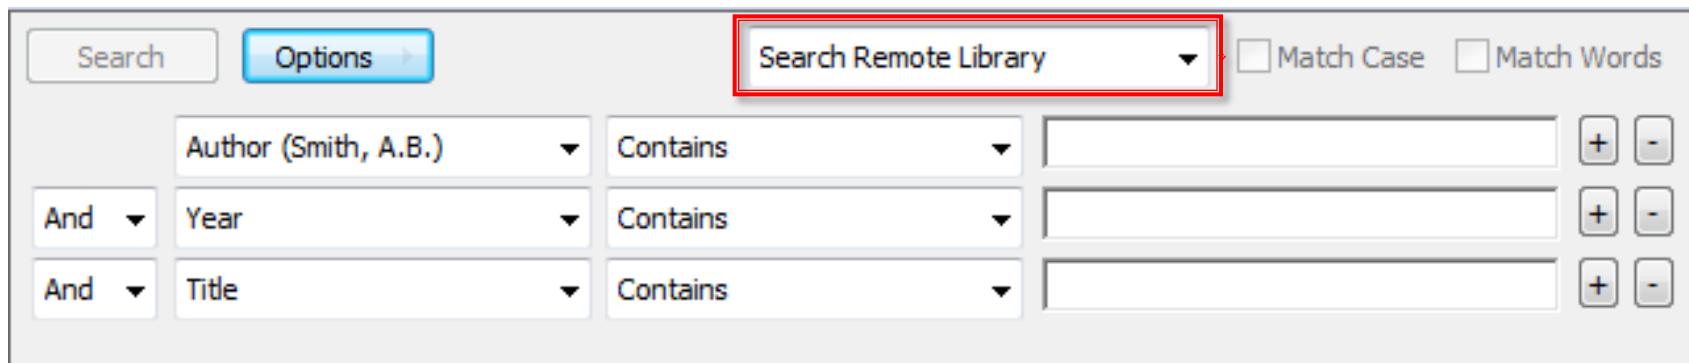

- In order to search the SLUB library catalogue, download the SWB.enz connection file
- <https://wiki.bsz-bw.de/doku.php?id=v-team:daten:z39.50lite>
- Download the file and open it with *EndNote*. *EndNote* will open the detail window with the connection details. Close this windows and restart *EndNote*. The Connection file will now appear in the list of online ressources.

# Online search in EndNote (3)

Drawback: Limited search options

**Note:**

- Detailed options when searching directly in the database make the online search inside EndNote only the second choice
- Search results are deleted after closing EndNote

Online Search-Fenster

# Online search in EndNote (3)

Search results can be transferred to your local library by using the ***Copy to Local Library*** button.

The screenshot shows the EndNote X7 application window. The menu bar includes File, Edit, References, Groups, Tools, Window, and Help. The toolbar features various icons for file operations like Open, Save, Print, and Search. A dropdown menu labeled "Show All Fields" is highlighted with a red box. On the left, a sidebar displays "My Library" with 868 items, "Online Trash" (0), and sections for "Online Search" (Librarian, LISTA, Pu...), "U Bas...", "U Bern", "U Jena", "U Jen...", and "Web ...", all with 0 items. The main pane lists search results with columns for Author, Year, Title, Rating, and Journal. The first result is An, L. X.; Li, J.; R... (2010) [Effects of electroacupuncture of different ac...]. The bottom pane shows detailed reference information for a selected record (Record Number: 183) and includes a "Copy to Local Library" button with a tooltip: "In Online Search Mode, copy the selected records to your Local Library."

Author	Year	Title	Rating	Journal

**Reference Type:** Journal Article  
**Record Number:** 183  
**Author:** Jedel, E., Labrie, F., Oden, A., Holm, G., Nilsson, L., Janson, P. O., Lind, A. K., Ohlsson, C.  
**Year:** 2011  
**Title:** Impact of electro-acupuncture and physical exercise on hyperandrogenism and oligo/amenorrhea in women with polycystic ovary syndrome: a randomized controlled trial  
**Journal:** Am J Physiol Endocrinol Metab  
**Volume:** 300  
**Issue:** 1  
**Pages:** E37-45  
**Date:** Jan  
**Short Title:** Impact of electro-acupuncture and physical exercise on hyperandrogenism and oligo/amenorrhea in women with polycystic ovary syndrome: a randomized controlled trial  
**Alternate Journal:** American journal of physiology. Endocrinology and metabolism

---

## Direct Export from Online-Databases

---

# Direct Export

Almost all bibliographic online-databases have an export function.

E.g.:

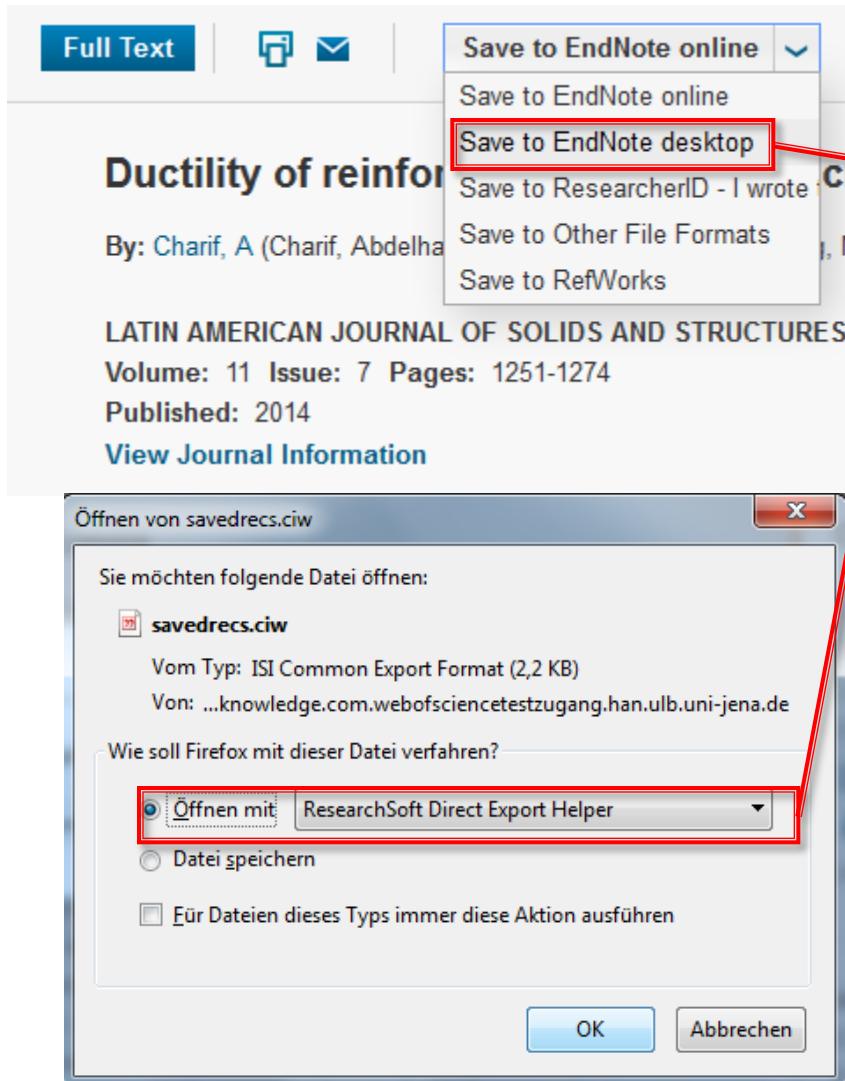

- *Web of Knowledge (Web of Science, WoS)*
- *PubMed*
- *Ovid databases*
- *EBSCO Host databases*
- *Google Scholar*
- *Library catalogues (e.g. SLUB Dresden, SWD)*

# Direct export from WoS (1)

The screenshot shows the homepage of the Web of Science search interface. At the top, there's a navigation bar with links for 'Go to mobile site', 'Sign In', 'Marked List (0)', and 'My EndNote Web'. Below the navigation is a menu bar with tabs: 'All Databases' (selected), 'Select a Database', 'Web of Science' (selected), and 'Additional Resources'. Underneath the menu bar are links for 'Search', 'Author Finder', 'Cited Reference Search', 'Advanced Search', and 'Search History'. The main content area is titled 'Web of Science SM'. It features a search form with two input fields. The first field contains 'HPV' and has a dropdown menu set to 'Topic'. Below it is an example: 'Example: oil spill\* mediterranean'. The second field contains 'zur Hausen H\* OR Hausen H\*' and has a dropdown menu set to 'Author'. Below it is another example: 'Example: O'Brian C\* OR OBrian C\*'. A note at the bottom of this section says 'Need help finding papers by an author? Use Author Finder.'

- WoS is an interdisciplinary portal
- Range of subjects: Medicine, Science, Social Sciences, Technology, Humanities and Art
- 10 000 scientific journals indexed with ca. 37 million indexed articles

# Direct export from WoS (2)

- (1) Search in WoS
- (2) Click Button *Save to EndNote*
- (3) Select *Open with ResearchSoft Direct Export Helper* (default value)
- (4) Reference is automatically opened in Endnote and moved into the group *Imported*
- (5) Import PDF-files using the *Find Full Text* function

# Export from EBSCO Host databases

New Search | Thesaurus | Cited References | Indexes

*EBSCO Host* is a provider (=search interface) for different scientific databases, for example

- Academic Search Complete
- PsycInfo

# Export from EBSCO Host databases

The screenshot shows the EBSCO Host 'Folder Contents' page. At the top, there are links for 'New Search', 'Thesaurus', 'Cited References', and 'Indexes'. On the right, there are links for 'Sign In', 'Folder' (which is highlighted with a red box), 'Preferences', 'Languages', and 'New Features'. Below this, a message says 'To store these items in the folder for a future session, Sign In to My EBSCOhost.' A red arrow points to the 'Implicit processes in pathological skin picking...' article entry. The article details are: Author: Schuck, Kathrin; Keijser, Ger; Rinck, Mike; Journal: Journal of Behavior Therapy and Experimental Psychiatry; Volume: Vol 43(1); Year: 2012; Pages: pp. 685-691. Subjects: Cognitive Processes; Psychopathology; Self Destructive Behavior; Treatment Outcomes; Approach Avoidance. Database: PsycINFO. Below the article, there are buttons for 'Linked Full Text' and 'ThULB - LINKING'. To the right, there is a sidebar with 'Print', 'E-mail', 'Save as File', and 'Export' buttons. The 'Export' button is highlighted with a red box and has a red arrow pointing to it.

(1) Intermediate storage of references in **Folder**

(2) **Export** button

(3) Export as a ris-file

(4) Can be opened with EndNote

# Export from Ovid databases

- OvidSP is a database provider offered by Wolters Kluwer
- It allows for access to databases like
  - Biological Abstracts
  - CAB Abstracts
  - INSPEC

# Export from Ovid databases

- (1) Select search results
- (2) Select **Export**
- (3) Open the generated cgi-file with Endnote

2.  [Temporal Germ Cell Development Strategy during Mixed Spermatogenesis with Male Mediterranean Gecko, \*Hemidactylus turcicus\* \(Reptilia: Gekkonidae\)](#)

Rheubert, Justin L. [Author, Reprint Author; E-mail: [Justin.Rheubert@selu.edu](mailto:Justin.Rheubert@selu.edu)]; Polden, Erik H. [Author]; Eckstut, Mallory E. [Author]; Collier, Matthew H. [Author]; Sever, David M. [Author]; Gribbins, Kevin M. [Author].

# PubMed

*PubMed* contains the medicinal database *MEDLINE*, which indexes 4600 biomedical journals and e-books and contains ca. 21 million citations.

# Export from PubMed

- (1) Select search results
- (2) ***Send to - Citation Manager - create file***
- (3) Select ***Open with EndNote X7***
- (4) Search results are imported

# SciFinder (Chemical Abstracts)

SciFinder is the biggest information resource for chemistry and related fields. It contains 34 million references from 10 000 journals, patents, books, conference proceedings and dissertations. Additionally, it offers information about 70 million chemical substances and 63 million protein/nucleotide-sequences

The screenshot shows the SciFinder search interface. At the top, there is a blue header bar with the SciFinder logo and navigation links for "Explore", "Saved Searches", and "SciPlanner". On the left, a sidebar menu includes "REFERENCES" (with options like Research Topic, Author Name, Company Name, Document Identifier, Journal, Patent, Tags) and "SUBSTANCES" (with options like Chemical Structure). The main search area has a title "REFERENCES: RESEARCH TOPIC" with a help icon. Below it is a search input field with examples: "The effect of antibiotic residues on dairy products" and "Photocyanation of aromatic compounds". A large blue "Search" button is at the bottom of this section, and a link to "Advanced Search" is also present.

# Import PDF files

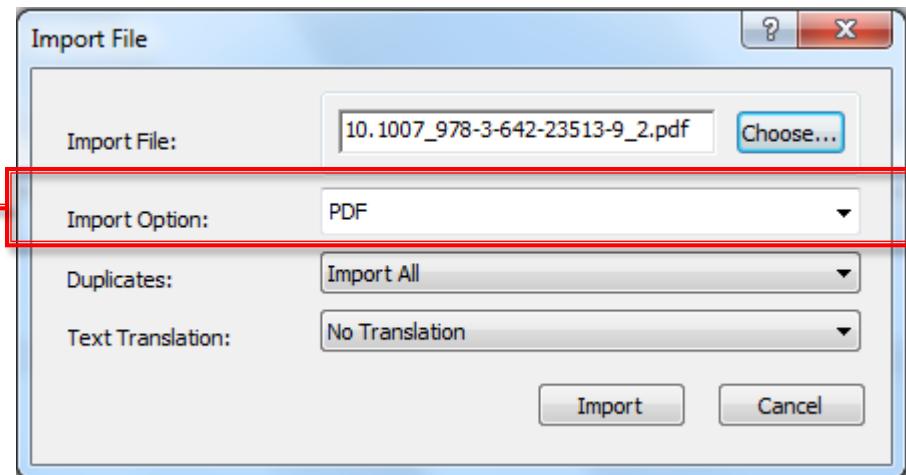

- Helpful tool
- Import a single PDF file or a folder containing PDF files
- EndNote automatically „unpacks“ the PDF and adds
  - Bibliographic data
  - Attachment (PDF) / Full text

## Note:

Metadata extractions only works when the PDF file contains a DOI  
*(Digital Object Identifier)*

# Import PDF-files

- *File/Import File* or *File/Import Data*
- Select Import Option: **PDF**

---

# Fulltexts

# Attach PDF files (1)

- (1) Save PDF file locally
- (2) Paper clip button or ***References/File Attachments/Attach File***
- (3) Paper clip symbol appears in the display
- (4) PDF is attached
- (5) PDF is stored in the EndNote data folder:  
***/user/documents/MyEndnotelibrary.Data/***

●	📎	Author
●	📎	Bansal, M.; /
○	📎	Rufinus,; Ma
●	📎	Rufinus,; Ma
●	📎	Kitahara, Su

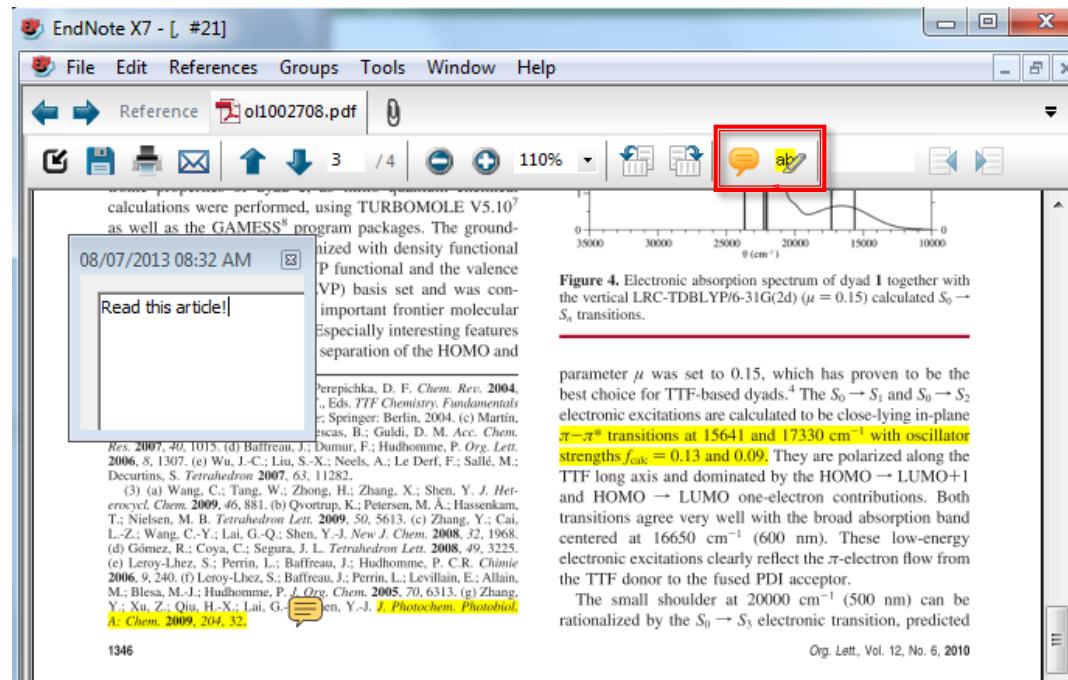

# Attach PDF files (2)

- An unlimited number of PDF files can be attached to a single reference
- Multiple functions: Print, Save, **Notes**, Turn, **Highlight**, Full text
- Open PDF file with external viewer: 
- Mail PDF file: 

# PDF highlighting and annotations

- PDF files can be highlighted and commented inside the EndNote PDF viewer
- Note: Annotations and highlighted text are only visible inside EndNote -> does not appear when opening the PDF file with another reader

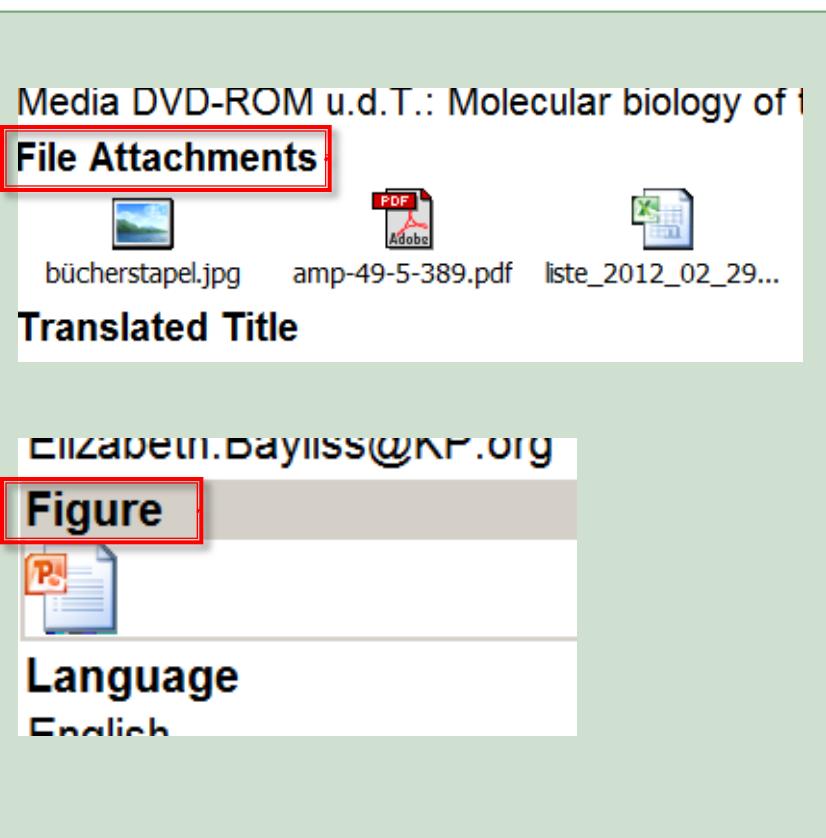

# Create links (1)

Create links between references and different files, e.g.:

- (1) Pdf fulltext as attachment
- (2) Image
- (3) PowerPoint-file
- (4) Excel file
- (5) Diagram
- (6) URL

Using the detail view:

*References/File*  
*Attachments/Attach File* or

# Find full text

- Works best when the IP-range of the University
  - Tip: If EndNote fails to find a full text, search manually using the EZB (Elektronische Zeitschriftenbibliothek) or other search tools
1. Select reference(s)
  2. ***Find Full Text*** (context menu) oder
  3. Found full texts are listed in the ***Found PDF*** group

The screenshot shows the EndNote desktop application. At the top is a toolbar with various icons. Below the toolbar is a 'Quick Search' bar and a 'Show Search Panel' button. The main area displays a list of references in a table format. The columns are labeled: Author, Title, Year, Description, Rating, Journal, Last Updated, and Reference Type. The 'Find Full Text...' button in the toolbar is highlighted with a red box, and a tooltip window is open over it, stating: 'Search the Web for full text documents for the selected references.' The first few entries in the list are: Davis, M. A.; Gra... (2013); Lee, L. A.; Huang... (2013); Litjens, Rjntm; T... (2013); Lorincz, A. T.; Br... (2013); Marinho-Dias, J.;... (2013); Meites, E.; Lin, C.... (2013); Mollers, M.; Voss... (2013); Scott, M. E.; Shv... (2013); Stevens, C. F.; Ca... (2013); Yang, W.; Song... (2013).

# OpenURL Link

OpenURL is a service which checks for full text in the electronic ressources licensed by the university library. It can be activated in EndNote in order to improve the sucess of the ***Check Full text function.***

## Activate OpenURL service in EndNote:

- a. ***Edit / Preferences / Find Full Text***
- b. Activate all possible options
- c. Enter URL for the path to the OpenURL-Linker:  
*„http://www-fr.redi-bw.de/links/?rl\_site=slub&sid=info:sid/primo.exlibrisgroup.com:primo3-medline“* in the field ***OpenURL Path***

Nr17

# Use OpenURL Link manually

- (1) Select reference
- (2) Select ***URL/OpenURL Link*** in the Context menu
- (3) Results are shown in browser window

---

# Reference Organization

# My Library

- Organization of EndNote libraries
- Categorization of references according to different criteria

## (1) Permanent groups

- **All References** and **Trash** are always shown

## (2) Temporary groups

- Automatically generated when executing certain commands
- Deleted when closing EndNote or the library
- E.g. **Imported**, **Unfiled**

# My Library

The screenshot shows the 'My Library' interface. On the left, there's a sidebar with navigation icons. The main area displays two sections: 'My Groups' and 'Online Search'. The 'My Groups' section contains three items: 'Geology' (23), 'Geology + Medicine' (1), and 'Medicine' (2). The 'Online Search' section lists various databases with their counts: BasicBIOSIS (EBSCO) (0), Biological Abs (OvidSP) (0), BIOSIS Previews (OvidSP) (0), GEOBASE (PQ) (0), GeoRef (OvidSP) (0), Library of Congress (0), LISTA (EBSCO) (0), PubMed (NLM) (0), ThULB\_Katalog (0), U Basel Bern (0), U Bern (0), U Jena (0), and Web of Science (TS) (0). A red box highlights the 'My Groups' and 'Online Search' sections.

## (3) User defined groups

- Custom groups
- Smart groups
- Groups created from groups

## (4) Online search

- Results of Online-searches from EndNote
- Overwritten when executing a new search
- Possible with lots of different databases (=Connection Files)

# Grouping of references (Groups)

## Note:

*Groups* are subsets of the total set of (*All References*).

*Groups* appear under ***My Groups*** in the group window

*Groups* are created individually

# Grouping of references (Groups)

- Thematical groups
  - Recommended when writing scientific papers
    - Introduction
    - Materials/Methods
    - Discussion
    - Subject 1
    - Subject 2
  - References of an author
  - References of a workgroup

# Grouping of references (Groups) (2)

## (1) Custom Groups

- *Defined, fixed groups*
- Manual assignment

## (2) Smart Groups

- *Dynamic groups*
- Based on search queries
- Automatically updated

**My Groups**

HPV test	(23)
HPV Type	(3)
Lehrbücher Molekularbiologie	(11)
wichtig für Einleitung	(1)

**My Groups**

HPV test	(23)
HPV Type	(3)
Lehrbücher Molekularbiologie	(11)
wichtig für Einleitung	(1)

# Grouping of references (Groups) (3)

## (3) Groups created from groups

- Combination of other groups (both custom and smart groups)
- Combination based on boolean operators: union, intersection or complement of sets

Geology + Medicine

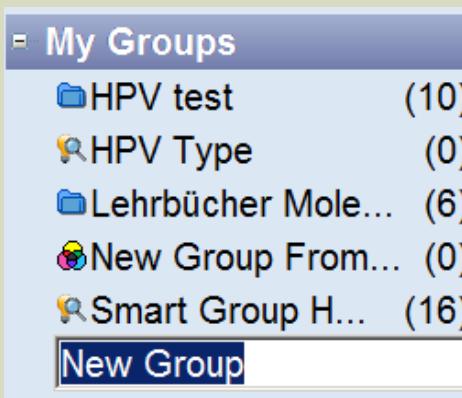

(1)

# Creation of Custom Groups

(1)

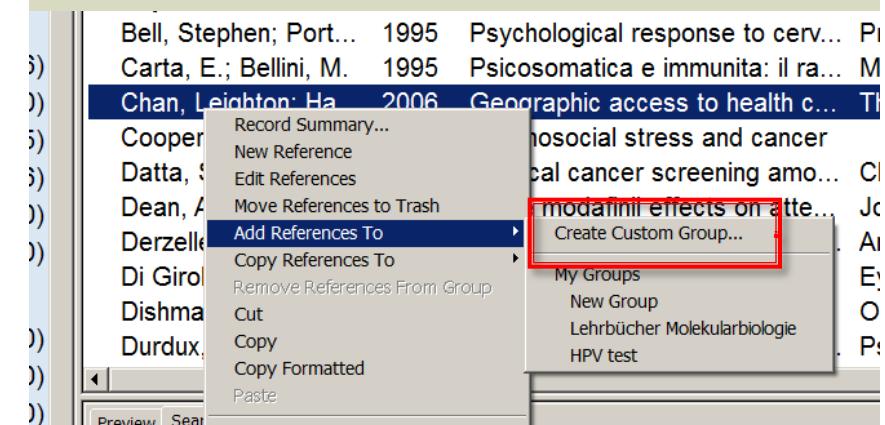

- Right mouse button
- Create new group
- Enter name

- Adding references with drag and drop

(2)

- Select reference(s)
- Right mouse button
- *Add References To / Create Custom Group*

# Smart Groups

- „Intelligent“ groups
- Dynamically generated
- Use with keywords: E.g. sort by „very important“, „important“
- Another possible use: Create a group with all references by a certain author
- Can be created in different ways

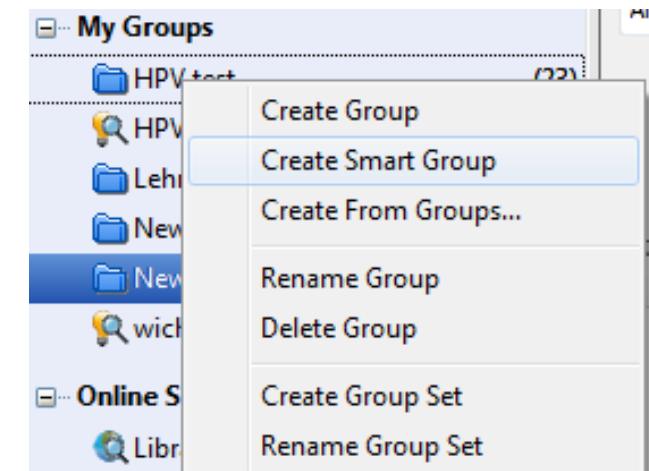

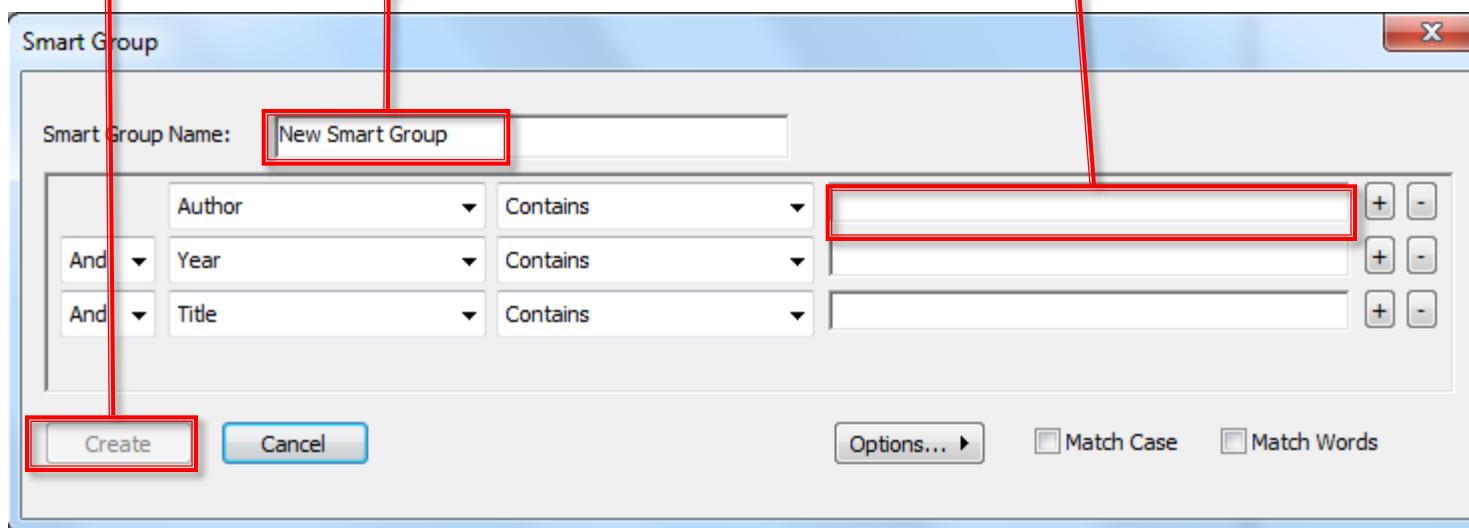

# Create Smart Groups (1)

(1) *My Groups / Create Smart Group*

(2) Search window appears

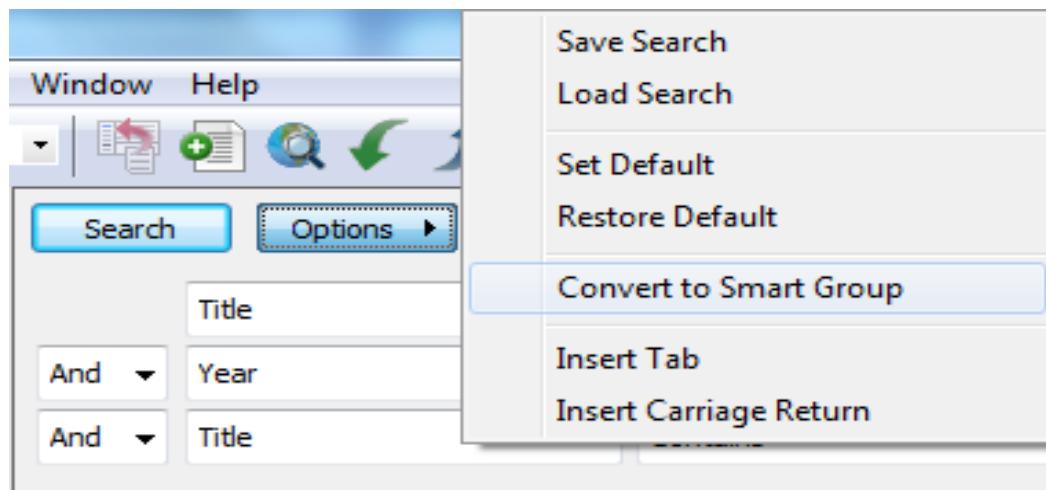

(3) Enter search queries used to define the smart group

(4) Name group

# Create Smart Groups (2)

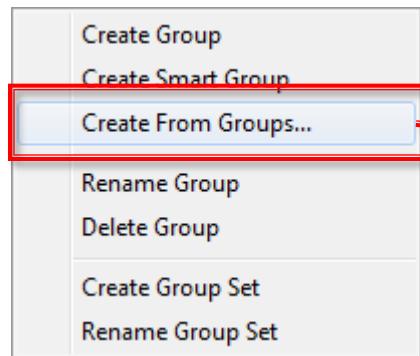

Different way:

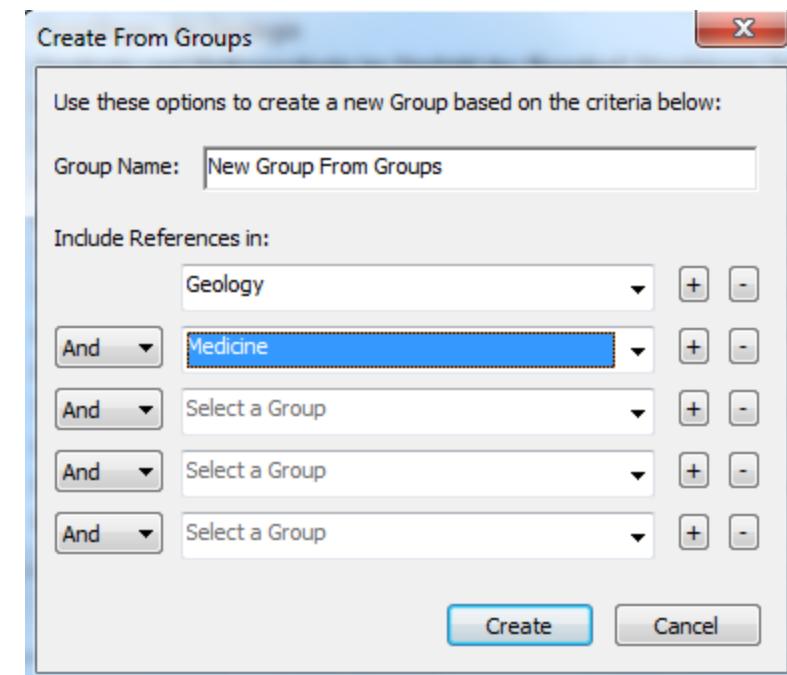

- In the search window of the library
  - (1) Start search
  - (2) ***Options / Convert to Smart Group***
  - (3) Enter group name

# Create Groups from groups

Right-click in the group window: ***Create from Groups...***

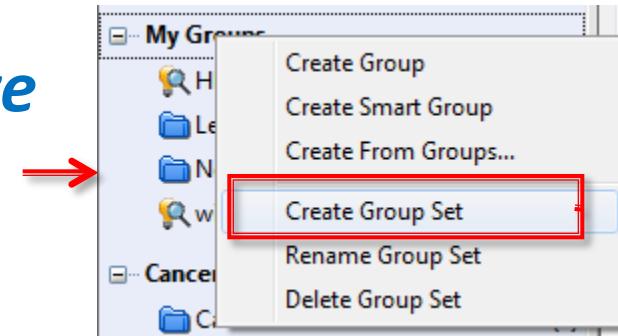

- Select
  - (1) Group name
  - (2) Select groups to combine
  - (3) Define boolean operators

# Create group sets (1)

- Higher-level groups
- Contain individual groups (both custom and/or smart groups)

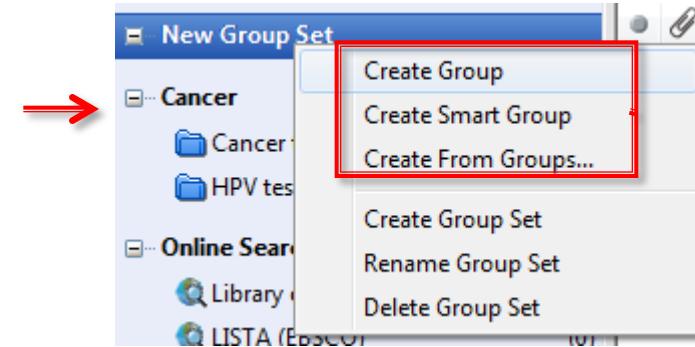

(1) Menu **My Groups / Create Group Set**

(2) Name *Group Set*

(3) Fill Group Set by Creating new groups or by drag-and-dropping existing groups

# Create Group Sets (2)

- The ***Unfiled*** group contains all references which are not part of a different groups

**Note:** To check which groups a reference is part of, select the reference and choose ***Record Summary*** in the context menu. References can be part of multiple groups.

# Delete groups and references

(1)

## Delete references

from **Custom Groups**

*Only group membership is deleted*

*References is still available under „All References“*

from **Smart Groups/Group from groups**

*Reference is moved to the trash!*

*Restore references into smart group is possible([Restore to Library](#))*

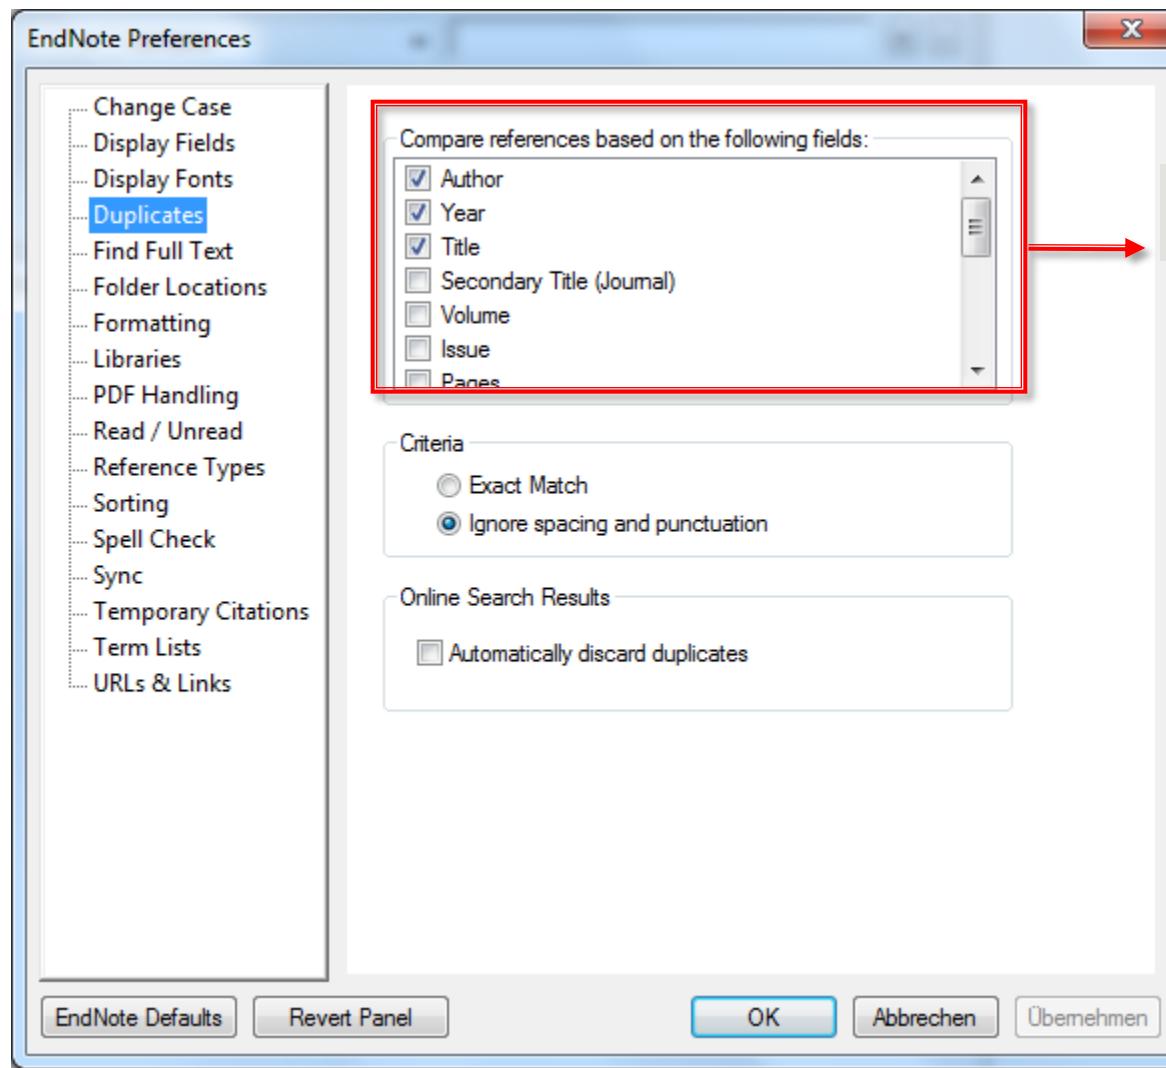

(2)

## Delete groups

- Deletes groups, but not the references
- Cannot be undone!

# Find duplicates (1)

## *Edit / Preferences / Duplicates*

Edit default values

Control for  
duplicates is  
automatically  
applied with the  
default values

# Find duplicates (2)

## (2) *References / Find Duplicates*

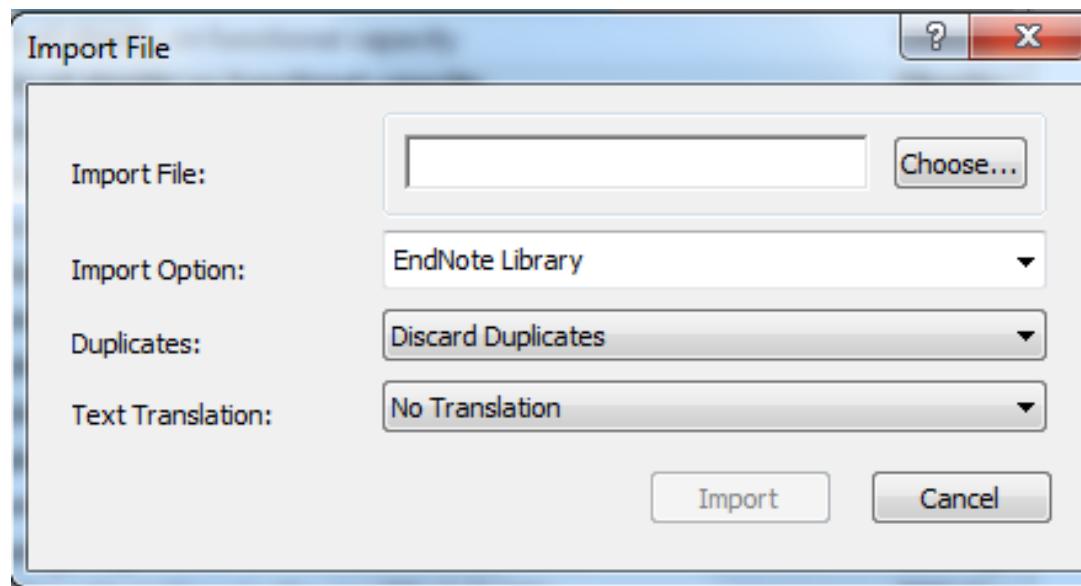

The screenshot shows a 'Find Duplicates' dialog box comparing two reference records. Both records are for 'Pataky, 2013 #829' and 'Pataky, 2013 #838', both categorized as 'Journal Article'. The 'Rating' section is identical for both. The 'Author' section lists 'Pataky, Z.', 'Armand, S.', 'Muller-Pinget, S.', 'Golay, A.', and 'Allet, L.'. The 'Year' section shows '2013' for both. The 'Title' section lists 'Effects of obesity on functional capacity'. The 'Journal' section lists 'Obesity (Silver Spring)'. The 'Volume' section is listed but empty. At the bottom, both records show 'Added to Library: 26.06.2013' and 'Last Updated: 30.07.2013' (for the first) or '26.06.2013' (for the second). Red boxes highlight the 'Keep This Record' buttons for both records. To the right, a sidebar shows a list of reference categories: All References (310), Copied References (139), Duplicate References (76) [highlighted with a red box], Unfiled (297), and Trash (13).

- Compare potential duplicates (differences in blue)
- Select which record should be kept

# Merge two databases

## (1) *File / Import File*

- Select import option *EndNote Library*
- Prevent creation of duplicates by choosing *Discard Duplicates*

---

# Export and Publication

- 
- ✓ *Export libraries*
  - ✓ *Cite While You Write (CWYW) & WORD*
  - ✓ *Edit Citation styles (output styles)*
-

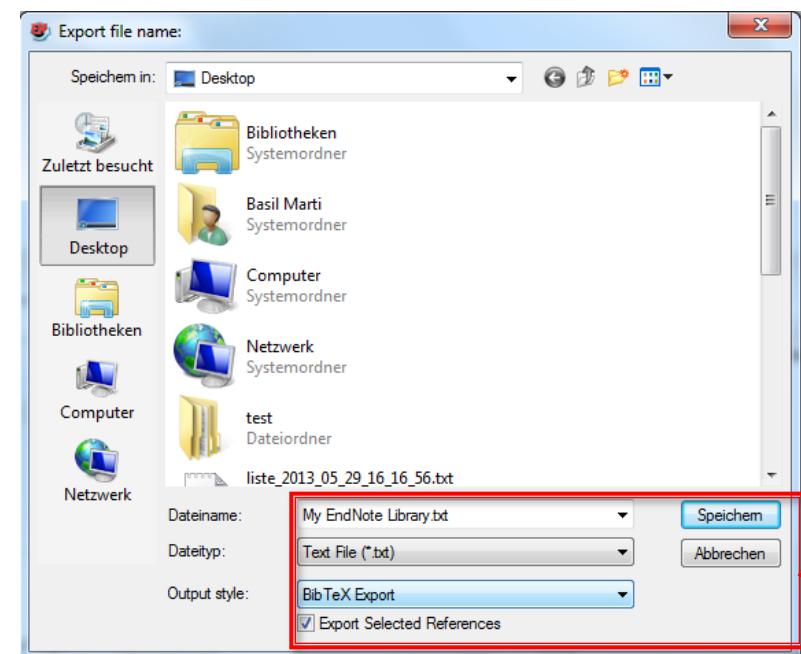

---

✓ *Export libraries*

---

# Export libraries

- ***File/Export***
- Output style
  - ***EndNote Export*** for export to other citation management software
  - ***BibTeX Export*** for LaTeX users

---

✓ **Cite While You Write (CWYW)**

---

# Cite While You Write (CWYW)

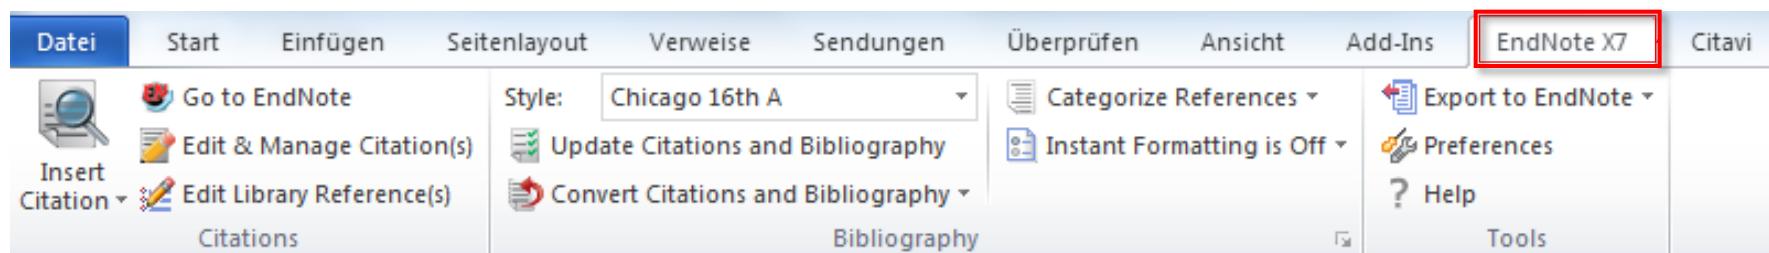

- Dynamical export of citations
  - in *WORD*
  - in other word processors
- Automatic generation of bibliographies
- Many different formats possible
- Insert citations from both WORD and EndNote
- Citations and bibliographies are dynamic:  
Style can be changed at any moment

## Tip:

*Both WORD and the EndNote Library have to be open!*  
Close all non-necessary libraries

# Cite While You Write in WORD

- Installation of an *EndNote* Plugin in WORD
- Adds EndNote X7-ribbon

# Cite While You Write in WORD

## (1) *Insert Citation / Find Citation*

(2) Search windows opens

(3) Search library by

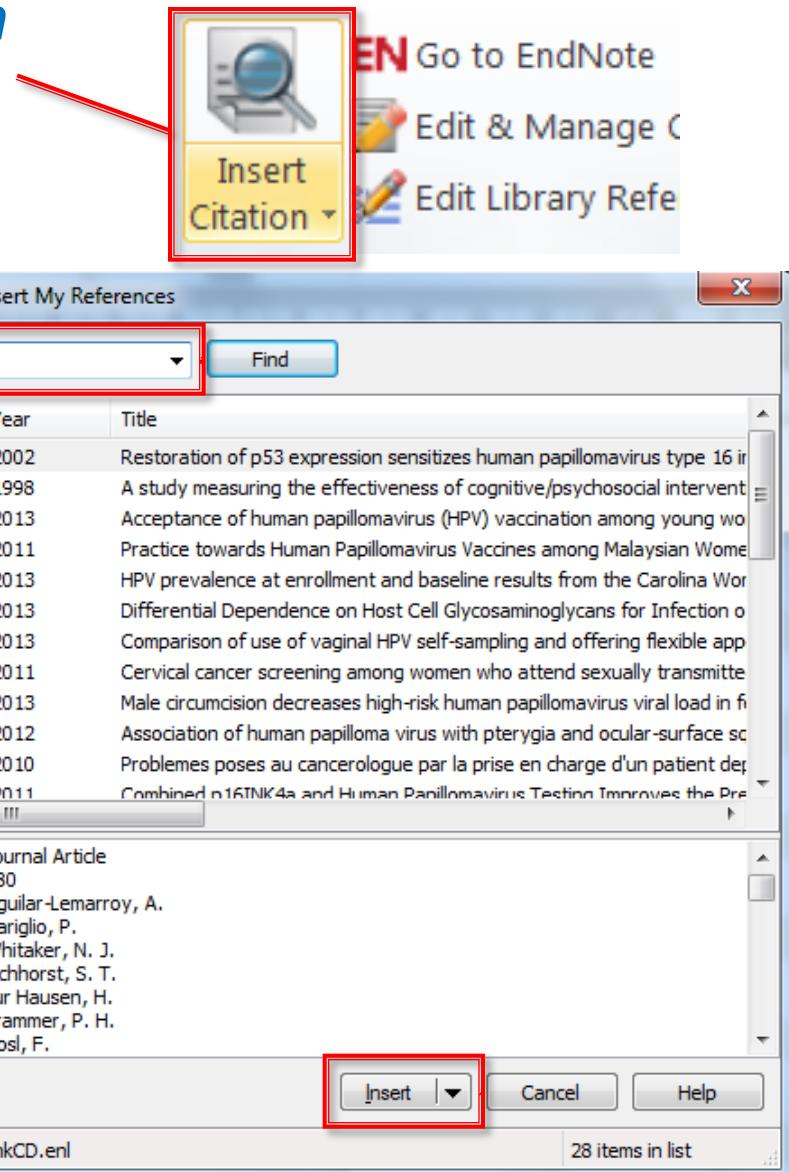

(1) Author

(2) Keywords

(3) Journal name ...

(4) Select reference and click on *Insert*

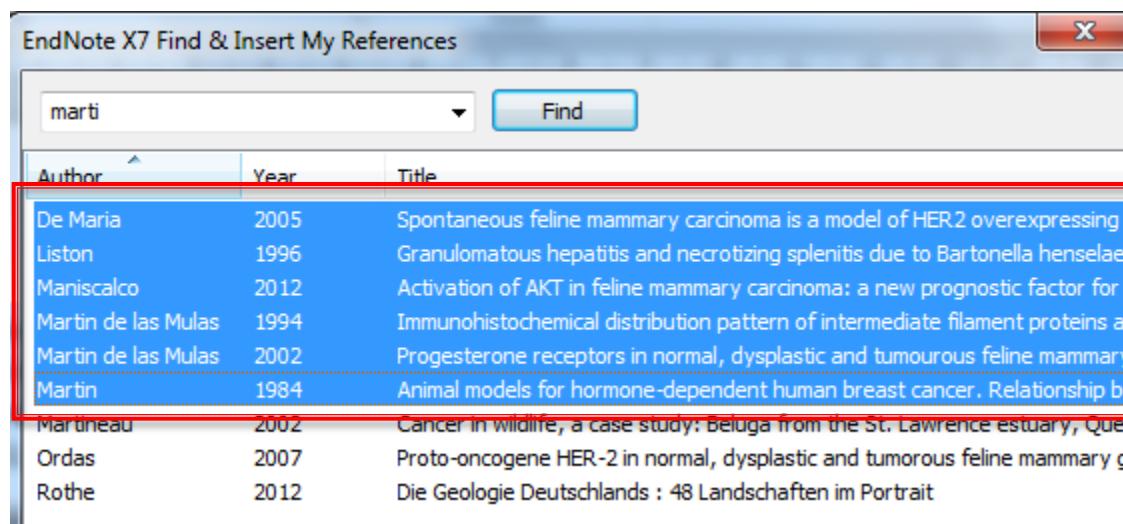

(5) Citation and bibliography entry are generated

# Cite While You Write in WORD

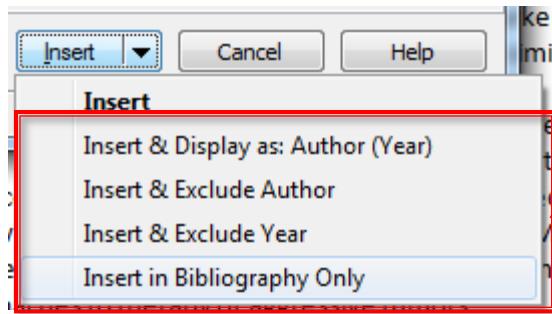

Additional options when inserting references:

- Selecting and inserting multiples references

# Cite While You Write in WORD

Additional options when inserting references:

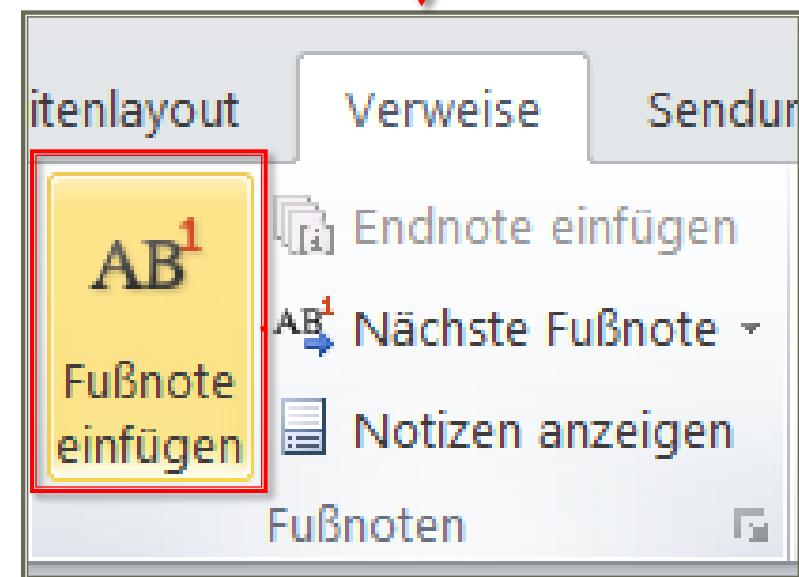

- ***Insert & Display as: Author (Year):*** For use when mentioning the author in the running text. E.g. John Smith et al. (**Citation**) postulate that ...
- ***Insert in Bibliography Only:*** No citation is inserted, reference is only included in bibliography

# Create Footnotes in WORD

- (1) Insert footnote
- (2) Move cursor to footnote
- (3) ***Insert Citation / Find Citation***

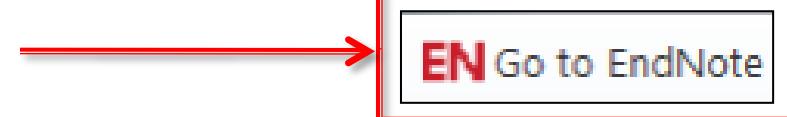

Some citation styles are not recommended for use with footnotes!

# Cite While You Write in EndNote

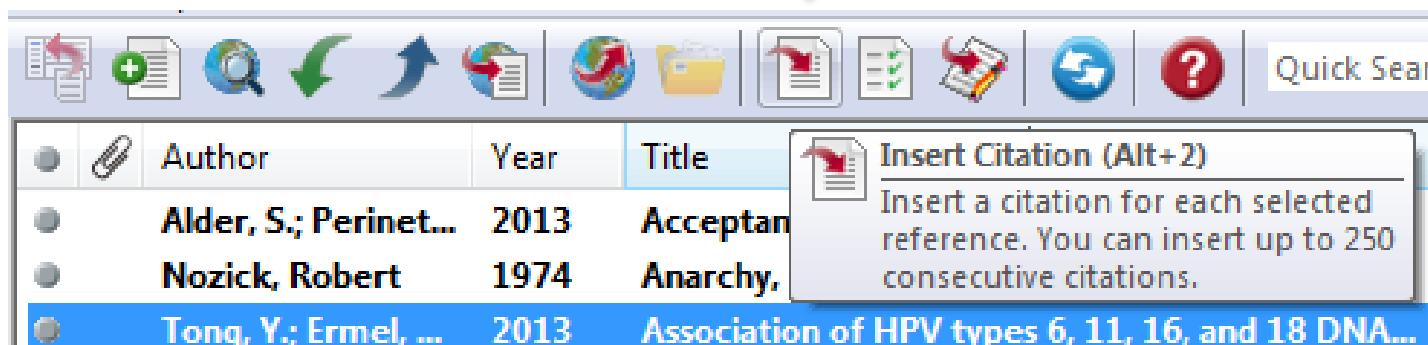

(1) Move Cursor in Word to desired position

(2) Change to EndNote

(3) Select reference in EndNote and click on

***Insert Citation***

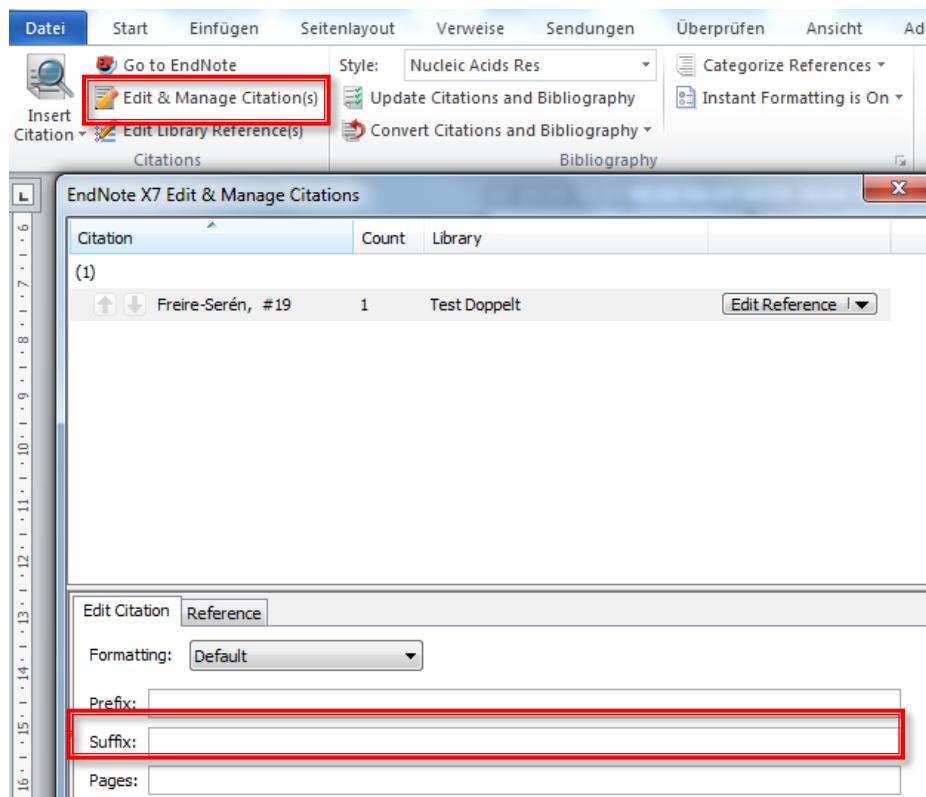

Insert Citation (Alt+2)  
Insert a citation for each selected reference. You can insert up to 250 consecutive citations.

	Author	Year	Title
●	Alder, S.; Perinet...	2013	Acceptan...
●	Nozick, Robert	1974	Anarchy,
●	Tong, Y.; Ermel, ...	2013	Association of HPV types 6, 11, 16, and 18 DNA...

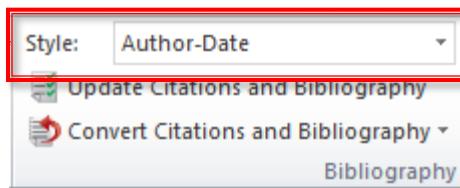

# Insert page numbers

- (1) Page numbers are not stored in EndNote
- (2) **Edit & Manage Citation(s)**
- (3) Enter page numbers in the **Suffix** field: e.g. „, p. 43.“

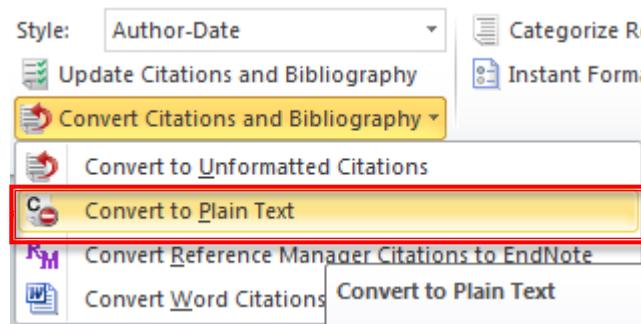

# Change citation style

The citation style can be changed at every time by using the drop down menu in Word. Citations and bibliography are then reformatted automatically.

# Convert to plain text

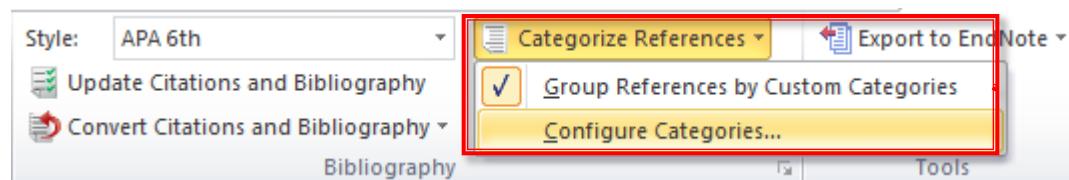

This function converts all citations and the bibliography to plain text, which you can edit with Word.

Use this function if you share your document with someone who doesn't have your EndNote library or to manually edit citations or bibliographies.

# Structured bibliographies

- Sorting the bibliography to according to document types or customized criteria (e.g. primary/secondary sources or sources/further reading)
- *Can also be used to create bibliographies for each chapter*

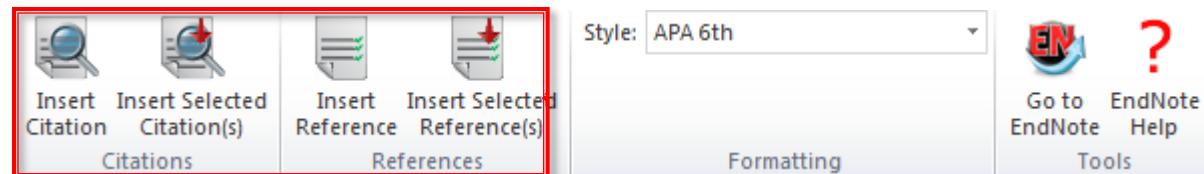

The screenshot shows the 'EndNote X7 Configure Categories' dialog box. On the left, there is a sidebar with 'Category Headings' and a tree view of categories. Under 'References', 'All References in Bibliography' (1) and 'Uncategorized References' (0) are listed. Under 'Category Headings', 'Primary Sources' (1) and 'Secondary Sources' (0) are listed. The 'Primary Sources' node is expanded, showing its child node 'Secondary Sources'. The main area of the dialog shows a table of references. The columns are 'Author', 'Year', 'Title', and 'Reference Type'. One entry is visible: Hennig, 2013, Am Hafen : mit Rätseln, Spielen ..., Book.

Author	Year	Title	Reference Type
Hennig	2013	Am Hafen : mit Rätseln, Spielen ...	Book

# Other programs

- Powerpoint

- **Insert Citation:** (Martin de las Mulas et al., 2002)
- **Insert Reference:** Martin de las Mulas, J., Espinosa de los Monteros, A., Bautista, M. J., Gomez-Villamandos, J. C., & Morales, C. (1994). Immunohistochemical distribution pattern of intermediate filament proteins and muscle actin in feline and human mammary carcinomas. *J Comp Pathol*, 111(4), 365-381.
- *No bibliography is available in PowerPoint document*
- *No dynamic formatting: Insertion as plain text*

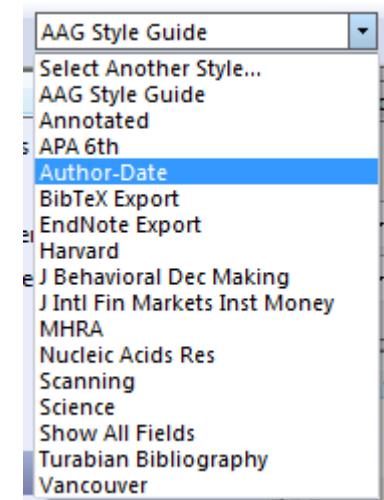

---

## *Edit citations styles (output styles)*

**Year.** Add commas  
or semicolons by  
Hand

# Edit citations

- Author Lists/Author Name: How/how many authors are shown in citations

The screenshot shows a software interface for editing citation styles. On the left, there is a navigation tree with the following structure:

- About this Style
- Punctuation
- Anonymous Works
- Page Numbers
- Journal Names
- Sections
- Citations
  - Templates
  - Ambiguous Citations
  - Author Lists** (highlighted with a red box)
  - Author Name
  - Numbering
  - Sort Order
- Bibliography
  - Templates
  - Field Substitutions
  - Layout
  - Sort Order
  - Categories
  - Author Lists

The main panel contains configuration options for "Author Separators". It includes two sets of input fields for specifying ranges of authors and their separators:

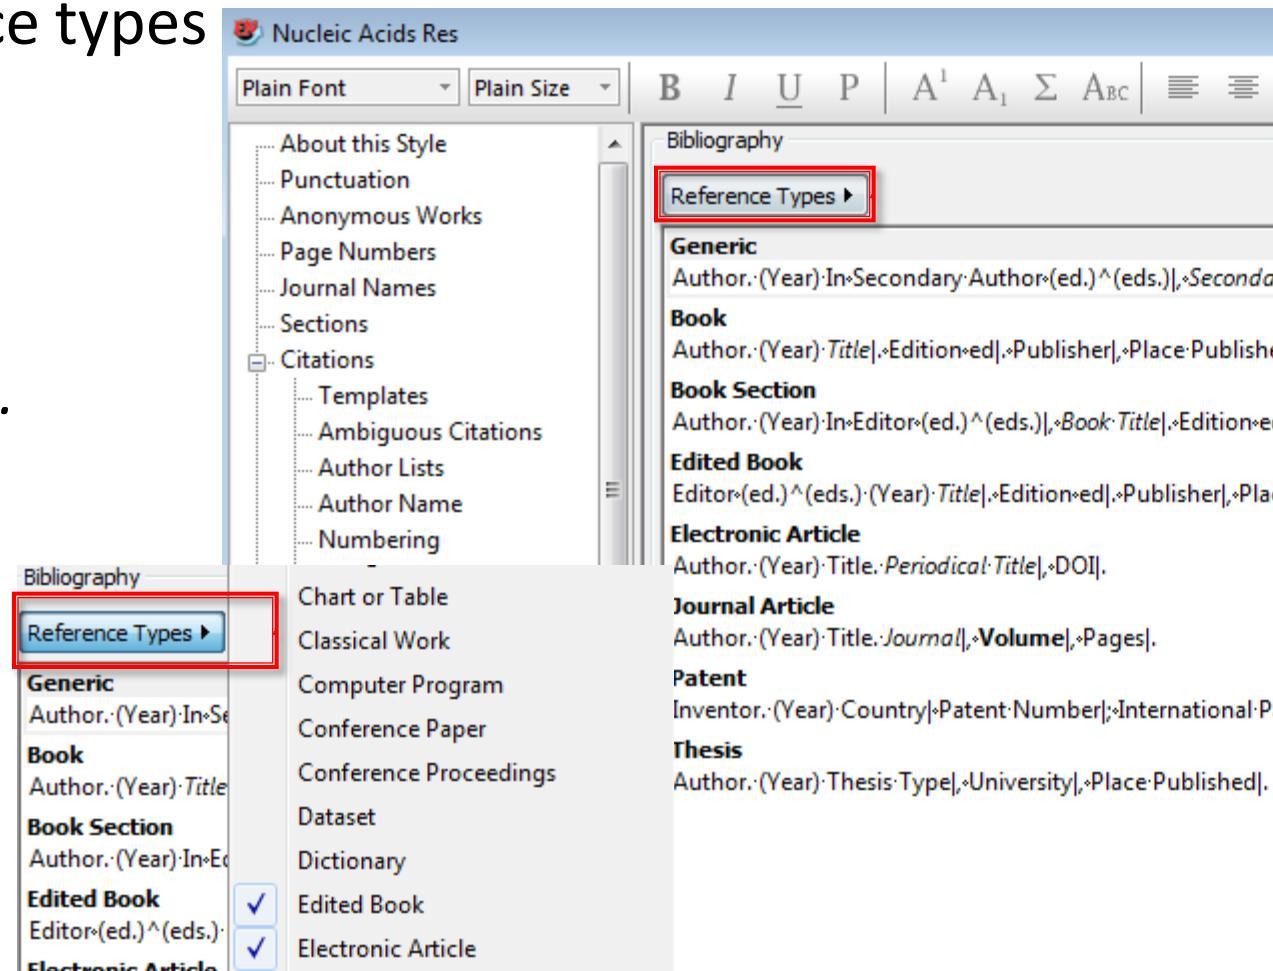

Number of Authors	between	before last	before last in format: Author (Year)
1 to 100	,	and	and
100 to 100	,	and	and

Below this, there are sections for "Abbreviated Author List - First Appearance" and "Abbreviated Author List - Subsequent Appearances". Each section has two radio button options:

- List all author names
- If  or more authors, list the first  author(s)  
and abbreviate with:   Italic
- List all author names
- If  or more authors, list the first  author(s)  
and abbreviate with:   Italic

# Edit bibliography (1)

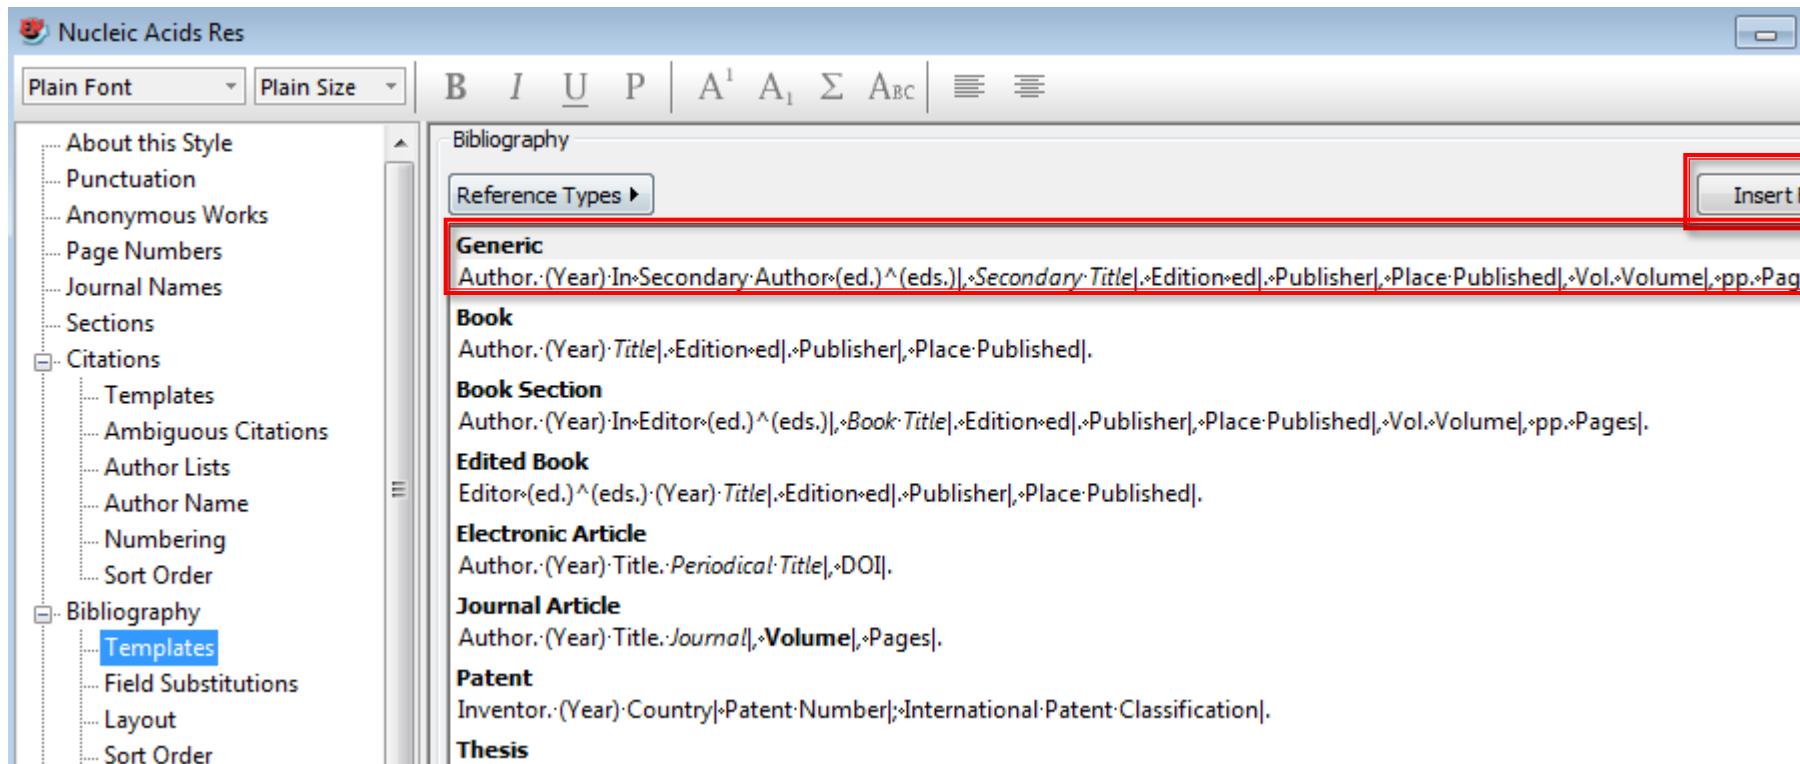

- Define bibliography pattern
- Add new reference types
  - *Book*
  - *Online Database*
  - *Personal communication...*

# Edit bibliography (2)

Enter fields using the ***Insert Field*** button.

Enter special characters (e.g. commas, parentheses) by hand

# Edit bibliography (3)

## Important rules:

- Dependance: Characters or Punctuations which are directly connected to an EndNote field (e.g. author) are only shown if the field is not empty
- |(Forced Separation): Ignores Dependance (e.g. author|,)
- non breaking space (diamond symbol): joins two parts together, creates dependance
- ^: Singular/Plural forms (e.g. (Ed.)^(Eds.))

# Edit bibliography (4)

## Sort order of the bibliography

The screenshot shows a software interface for managing bibliographic styles. On the left, there is a sidebar with the following navigation:

- About this Style
- Punctuation
- Anonymous Works
- Page Numbers
- Journal Names
- Sections
- Citations
  - Templates
  - Ambiguous Citations
  - Author Lists
  - Author Name
  - Numbering
  - Sort Order
- Bibliography
  - Templates
  - Field Substitutions
  - Layout
  - Sort Order

The "Sort Order" button under the "Bibliography" section is highlighted with a red border.

The main panel displays the "Bibliography Sort Order" settings. It includes a list of sorting options with radio buttons and a checkbox at the bottom:

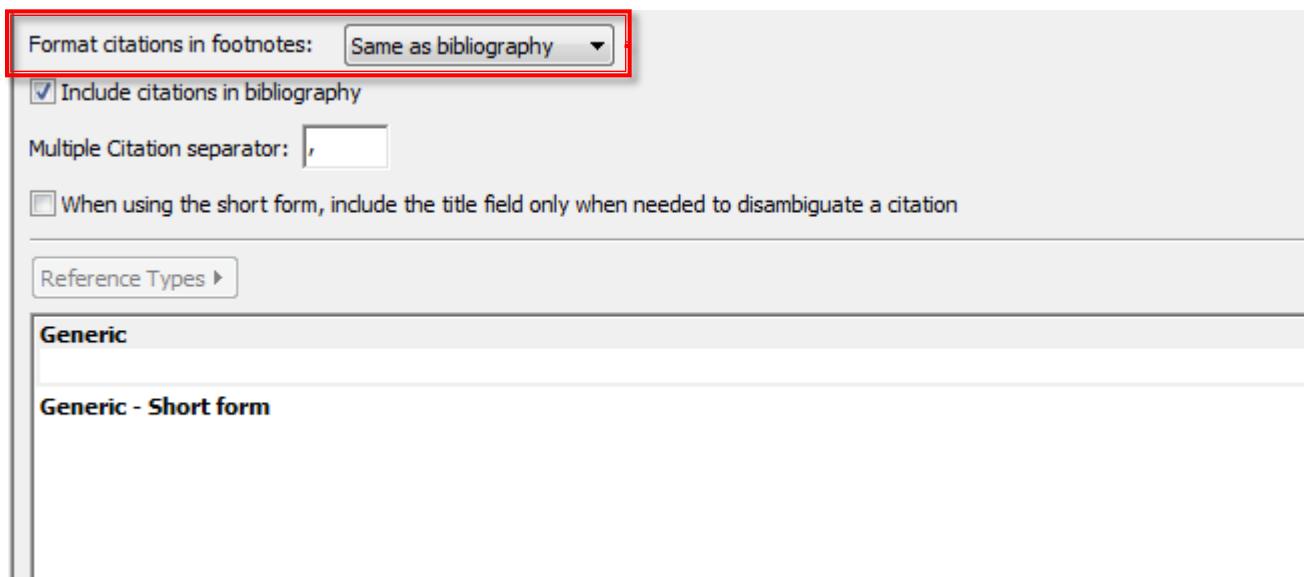

- Order of appearance
- Author + Title
- Author + Year + Title
- First Author + Year + Other Authors
- First Author + # of Authors + Year
- Other...

Sort edited works after original works by the same author

# Edit footnotes

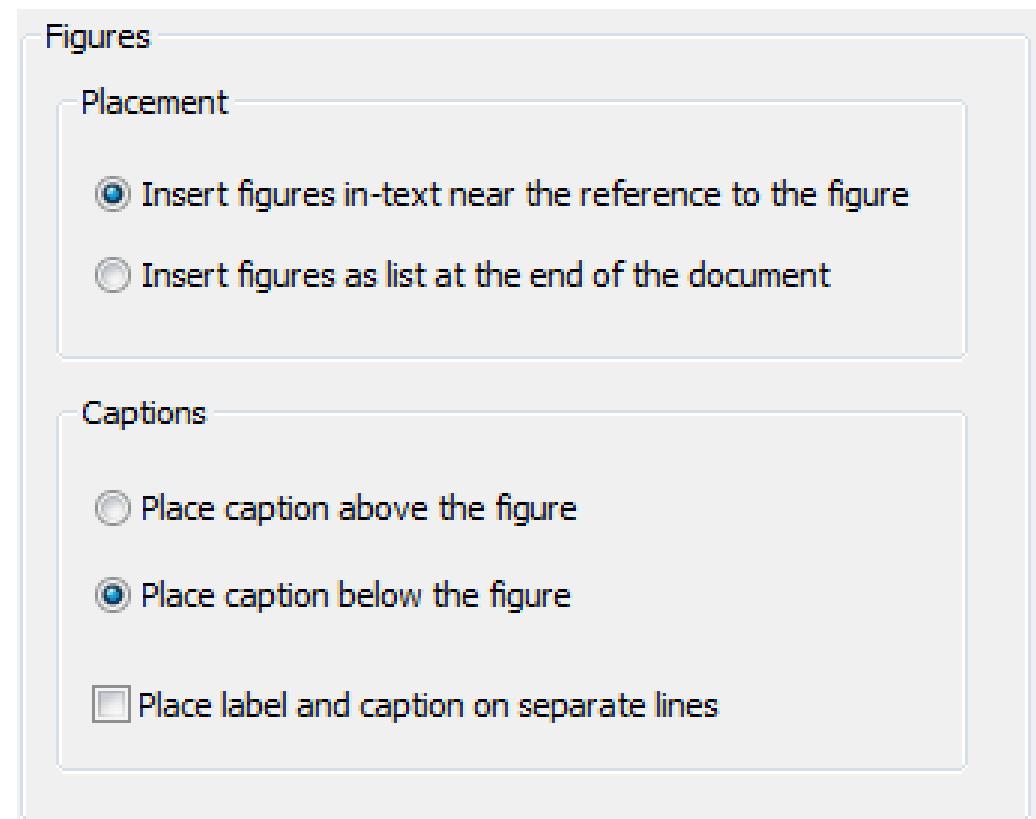

Three possibilities to determine the footnote style:

- Define your own templates
- Use formatting of bibliography entries
- Use formatting of citations

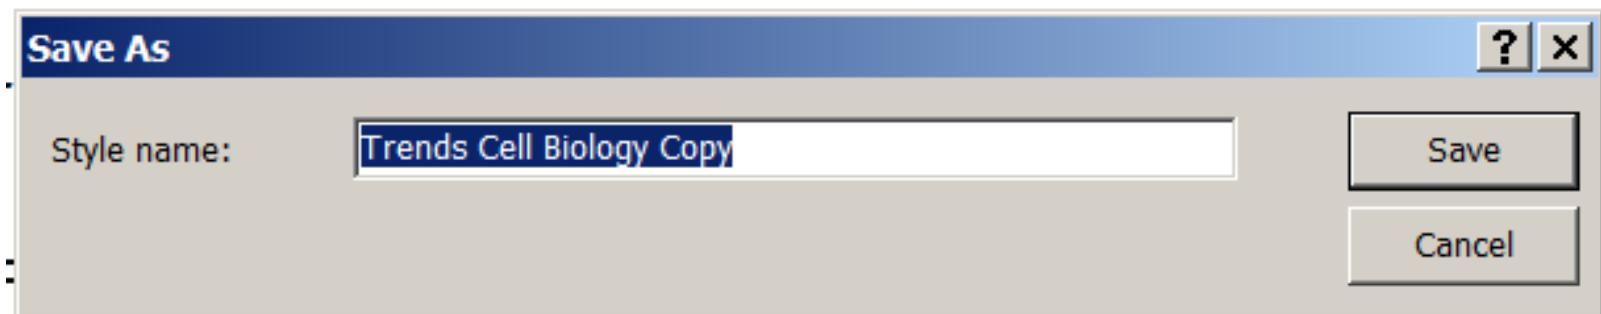

# Edit Figures & Tables

- Placement of figures and tables
  - In the text
  - At the end of the document

# Online & Collaborative reference management

# *Compressed Library*

- (1) For Backup-purposes (Recommended!)
- (2) For collaborative work

- Send by mail is possible
- Compressed format
- Save with/without attachments

## **(1) *File / Compressed Library***

- (2) Save locally
- (3) Open with **File / Open / Open Library / ... .enlx**

# *Teamwork and mobile work with EndNote Web*

- Bidirectional synchronization between EN Desktop- und Online-Version

- Access from everywhere using a web browser
- Menus in different languages (English/German etc.)
- *EndNote Web* is well suited for collaborative work

# EndNote Web

## *Disadvantages:*

- Limited functionality
- No access to web-based libraries after leaving the institution licensing Endnote Web
- Account will be deleted after 1 year of inactivity
- No offline-editing possible
- More interference-prone (server problems, maintenance, stability of the internet connection)

Check first which functionalities are necessary for you!

# Registration of EN Web

- One-time registration under  
<https://www.myendnoteweb.com/>
- Download of word plugin for CWYW-editing possible

The screenshot shows the EndNote Web 3.3 interface in Mozilla Firefox. The title bar reads "EndNote Web 3.3 - Mozilla Firefox". The address bar shows the URL "www.myendnoteweb.com/EndNoteWeb.html?cat=myrefs&". The main content area displays a list of references under the heading "HPV Integration". A context menu is open over a reference by Al-Naggar, R. A., with options like "Zu Gruppe hinzufügen...", "Aus Gruppe entfernen", and "Neue Gruppe". The "Zu Gruppe hinzufügen..." option is highlighted. The sidebar on the left includes sections for "Schnellsuche", "Meine Referenzen" (with links to "Alle Referenzen (67)", "Merkliste (0)", "Papierkorb (0)", and "Eigene Gruppen: HPV Integration (67), LB Molekularbiologie (0)"), and "ResearcherID Mehr Infos". The bottom right corner features the ThULB logo.

# Synchronization EN Desktop and Web

## (1) Synchronization

- Adding references
- Deleting references
- Editing references
- Only custom groups are synchronized
- Synchronization can only be started from EN Desktop

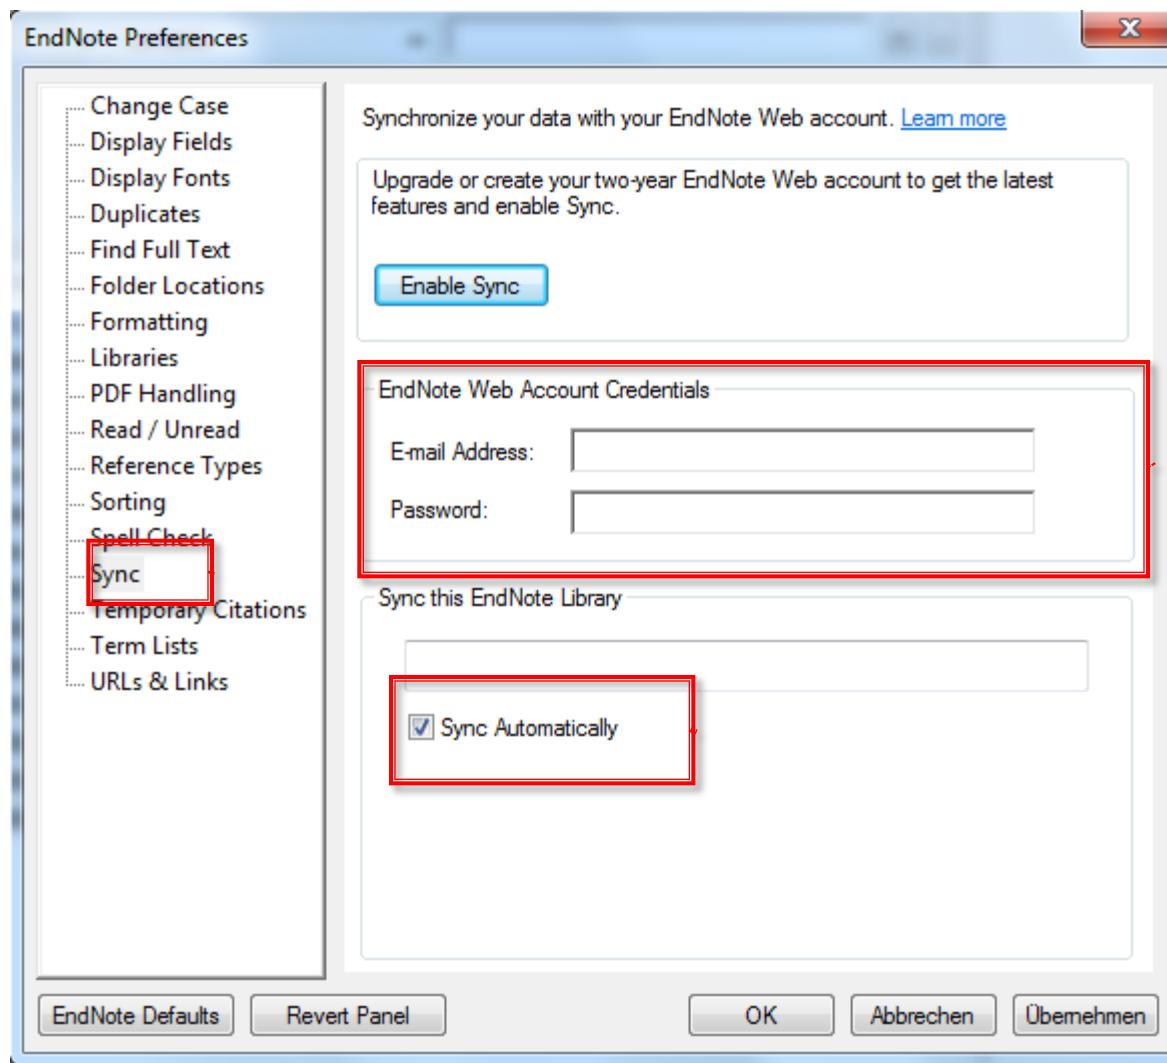

# *Synchronization EN Desktop and Web*

- (2) *Up to 5 GB of space*
- (3) *First synchronization moves all references from EN Desktop to Web and vice versa. Additional synchronizations will update only changes to your database.*
- (4) *Rules for attachments*
  - All attachments will be synchronized in both directions
  - Deleted attachments will be synchronized again, if there are only deleted in one place
    - In order to really delete an attachment the attachment has to be manually deleted both in EN Desktop and Web.

# Synchronization with Endnote Web

# EndNote Web – Collaborative work

The screenshot shows the EndNote Web interface with the 'My References' tab selected. The main area is titled 'Manage My Groups'. On the left, there's a form to add e-mail addresses to a group, with an input field containing 'basil.marti@thulb.uni-jena.de'. Below it, there's an option to select a text file. At the bottom, there are radio buttons for 'Read only' (selected) and 'Read & Write'. A note states that attachments are not shared regardless of access privileges. Buttons for 'Apply' and 'Close window.' are at the bottom.

My Groups↑	Number of References	Share		
Geology	16	<input type="checkbox"/> Manage Sharing	<input type="button" value="Rename"/>	<input type="button" value="Delete"/>
My papers	1	<input type="checkbox"/> Manage Sharing	<input type="button" value="Rename"/>	<input type="button" value="Delete"/>
test	0	<input type="checkbox"/> Manage Sharing	<input type="button" value="Rename"/>	<input type="button" value="Delete"/>

- Select group
- Enter e-Mail addresses
- Option: Read only / Read & Write

# EndNote Web – Collaborative work

- No sharing of attachments
- Shared groups are only synchronized for the original owner of the group, not for the invited collaborators

The screenshot shows a sidebar menu with the following items:

- Meine Referenzen**
- [Alle Referenzen \(0\)](#)
- [\[Nicht zugeordnet\] \(0\)](#)
- [Merkliste \(0\)](#)
- [Papierkorb \(0\)](#)
- [▼ Eigene Gruppen](#)

Below this, there is a section titled **Von anderen Benutzern freigegebene Gruppen**, which is highlighted with a red border. Inside this section, there is a link [Geology \(16\)](#) .
